Painting on China What to Paint and How to Paint it a Hand-book of Practical Instruction in Overglaze Painting for Amateurs in the Decoration of Hard Porcelain James Carter Beard,2025-12-03 Reprint of the original first published in 1882 The Antigonus publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage China Painting Mary Louise McLaughlin,1890 The Birth of Landscape Painting in China Michael Sullivan,1962 **The Magic of China Painting** Celia Shute,1993 Painting on China James Beard,2014-06-10 From the INTRODUCTION THIS little work is not only intended as a guide to the particular art of china painting but is especially designed to meet the needs of those who may be unaccustomed to the use of either brush or pencil With this end in view the strict attention which will be given to practical detail and the careful instruction in the rudiments of the art may prove somewhat fatiguing to those who already experienced in oil and water colors desire only such instruction as will aid them in the use of mineral colors upon the glazed surface of hard porcelain Let these amateurs in china painting remember that the most skillful artists have failed in attempts at china decoration through ignorance of a few secrets pertaining to this art alone which when learned seem simple enough but by their intelligent use enable the artist to produce results that add materially to our home decoration First attempts are always more or less discouraging Difficulties unknown in oil painting are here encountered at every step but these difficulties insurmountable by the uninitiated are after a little careful study easily overcome For the encouragement of beginners it may also be said that if obstacles are encountered in the first manipulation of the vitrifiable colors used in china painting so also are more agreeable results possible from the hands of the amateur than in any other branch of art and articles in china decorated by purely mechanical means sometimes compare favorably with the valuable productions of accomplished artists Success in this art depends greatly upon the patience and perseverance of the decorator and a proper selection of colors brushes etc It may also be added that perfect order and cleanliness are not only desirable but positively necessary in order to obtain satisfactory results It would be hard to find an accomplishment more refined or elegant or that will yield a better return for the time labor and thought expended on it than china painting Many beautiful and original modes of decoration and it may be added many novel and interesting artistic ideas which would otherwise lie dormant may here find expression as the tyro in this branch of art becomes more proficient and better able to finish and perfect the work Many persons in the great cities earn a comfortable livelihood by practicing this branch of art and in proportion as they excel find both profit and delight in its pursuit A manual for china painters; being a practical and comprehensive treatise on the art of painting china and glass with mineral colors Nicola di Rienzi Monachesi,1896 **China Painting Projects with Sheila Southwell** Sheila Southwell,1987 The Birth of Landscape Painting in China: The Sui and T'ang dynasties Michael Sullivan,1962-01-01 Vol 2 has title Chinese landscape painting **Painting China & Porcelain** Sheila Southwell,1995

between politics and art in any society should not be seen simply as one of cause and effect Political and artistic issues are linked to one another through a complex network of interactions and associations In the People's Republic of China where all aspects of society are directly related to politics and where the creation of art is in itself considered a political act this relationship is more clearly defined than elsewhere though no less complicated In China the government plays a direct and active role in overseeing the nation's artistic production and in determining the criteria for critical judgment This study is divided into three sections Chapter 1 outlines the major statements of artistic policy and the theoretical structure upon which the policies are based Chapter 2 deals with the effect of the artistic policies upon artists and the reactions of painters to the political demands placed upon them The third chapter will focus on the experiences of three such artists Kuan Shan yueh Li Ko jan and Ch ien Sung yen All three specialize in landscape a genre that has been especially problematic and all three incorporate both Western techniques and traditional Chinese methods of drawing
