## **Painting On Light Drawings Stained G:**

*Painting on Light* Barbara Butts, Lee Hendrix, 2001-03-01 The names Albrecht Dürer and Hans Holbein the Younger evoke the dazzling accomplishments of Renaissance panel painting and printmaking but they may not summon images of stained glass. Nevertheless Dürer, Holbein and their southern German and Swiss contemporaries designed some of the most splendid works in the history of the medium. This lavish volume is a comprehensive survey of the contribution to stained glass made by these extraordinarily gifted draftsmen and the equally talented glass painters who rendered their compositions in glass. Included are discussions of both monumental church windows and smaller scale stained glass panels made for cloisters, civic buildings, residences and private chapels. The subjects of these rarely seen drawings and panels range from religious topics to secular themes including love, planets, hunts and battles. Focusing on stained glass produced in Germany and Switzerland from about 1495 to 1530, *Painting on Light* includes drawings by Dürer, Holbein, Albrecht Altdorfer, Hans Baldung Grien, Jörg Breu the Elder, Hans Burgkmair, Urs Graf, Hans von Kulmbach, Hans Leu the Younger, Niklaus Manuel Deutsch, Hans Schufelein, Hans Weiditz and others. This informative book is published in conjunction with an exhibition at the Getty Museum from July 11 through September 24, 2000 and from November 7, 2000 to January 4, 2001 at the Saint Louis Art Museum.

**Stained Glass** Virginia Chieffo Raguin, 2013 Stained glass is a monumental art, a corporate enterprise dependent on a patron with whom artists blend their voices. Combining the fields now labeled decorative arts, architecture and painting, the window transforms our experience of space. Windows of colored glass were essential features of medieval and Renaissance buildings. They provided not only light to illuminate the interior but also specific and permanent imagery that proclaimed the importance of place. Commissioned by monks, nuns, bishops and kings as well as by merchants, prosperous farmers and a host of anonymous patrons, these windows vividly reflect the social, religious, civic and aesthetic values of their eras. Beautifully illustrated with reproductions from the remarkable stained glass collection at the J. Paul Getty Museum, *Stained Glass* addresses the making of a stained glass window, its iconography and architectural context, the patrons and collectors, and the challenges of restoration and display. The selected works include examples from Austria, Belgium, England, France, Germany, the Netherlands and Switzerland. Subject matter ranges from monumental religious scenes for Gothic churches to lively heraldic panels made for houses and other secular settings. Integrating comparisons to works of art in other media such as manuscripts, drawings and panel paintings, this book encourages the general reader to see stained glass as an element of a broad artistic production.
