### **Why Art Cannot Be Taught** James Elkins,2001-05-17

He also addresses the phenomenon of art critiques as a microcosm for teaching art as a whole and dissects real life critiques highlighting presuppositions and dynamics that make them confusing and suggesting ways to make them more helpful. Elkins's no nonsense approach clears away the assumptions about art instruction that are not borne out by classroom practice. For example he notes that despite much talk about instilling visual acuity and teaching technique in practice neither teachers nor students behave as if those were their principal goals. He addresses the absurdity of pretending that sexual issues are absent from life drawing classes and questions the practice of holding up great masters and masterpieces as models for students capable of producing only mediocre art. He also discusses types of art including art that takes time to complete and art that isn't serious that cannot be learned in studio art classes
