Delivers a wealth of practical information for fulfilling the spiritual needs of all patients and their families. Written as a practical resource to teach nurses and nursing students, this text explores how to best address spiritual assessment and care. Spirituality, the search for meaning in life and connection to others, remains relevant to all patient interactions and an essential component for nurses to integrate into their everyday practice. Using a multicultural and client centered approach, chapters explore the concept of spirituality and its relationship with religion and health to directly place spirituality in a nursing context. Reflection questions interspersed throughout encourage the reader to analyze their own experiences with spirituality within both professional and personal contexts and affirm how a nurse's own spirituality can influence her or his practice.
