Deirdre Loughridge

Painterly Enlightenment:

Painterly Enlightenment Thomas DaCosta Kaufmann,2005 Kaufmann situates Maulbertsch as a fresco painter at a time of transition to easel painting a colorist at a time when color was not fully appreciated by contemporary observers and an interpreter of religious themes at a time when secular subjects were becoming more popular Although he has been dismissed as an eccentric by previous scholars Kaufmann s analysis shows Maulbertsch involved in the intellectual and aesthetic issues of his day **BOOK JACKET** Art and Religion in Eighteenth-Century Europe Nigel Aston,2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study *Art and Religion in Eighteenth Century Europe* will be essential for art history and religious studies scholars alike **Palaces of Reason** Robin L. Thomas,2023-11-28 Palaces of Reason traces the fascinating history of three royal residences built outside of Naples in the eighteenth century at Capodimonte Portici and Caserta Commissioned by King Charles of Bourbon and Queen Maria Amalia of Saxony who reigned over the Kingdom of the Two Sicilies these buildings were far more than residences for the monarchs They were designed to help reshape the economic and cultural fortunes of the realm The palaces at Capodimonte Portici and Caserta are among the most complex architectural commissions of the eighteenth century Considering the architecture and decoration of these complexes within their political cultural and economic contexts Robin L Thomas argues that Enlightenment ideas spurred their construction and influenced their decoration These modes of thinking saw the palaces as more than just centers of royal pleasure or muscular assertions of the crown s power Indeed writers and royal ministers viewed them as active agents in improving the cultural political social and economic health of the kingdom By casting the palaces within this narrative Thomas counters the assumption that they were imitations of Versailles and the swan songs of absolutism while expanding our understanding of the eighteenth century European palace more broadly Original and convincing Thomas s book will be of interest to historians of art and architectural history and eighteenth century studies

Haydn's Sunrise, Beethoven's Shadow Deirdre Loughridge,2016-09-06 The years between roughly 1760 and 1810 a period stretching from the rise of Joseph Haydn s career to the height of Ludwig van Beethoven s are often viewed as a

golden age for musical culture when audiences started to revel in the sounds of the concert hall But the latter half of the eighteenth century also saw proliferating optical technologies including magnifying instruments magic lanterns peepshows and shadow plays that offered new performance tools fostered musical innovation and shaped the very idea of pure music Haydn s Sunrise Beethoven s Shadow is a fascinating exploration of the early romantic blending of sight and sound as encountered in popular science street entertainments opera and music criticism Deirdre Loughridge reveals that allusions in musical writings to optical technologies reflect their spread from fairgrounds and laboratories into public consciousness and a range of discourses including that of music She demonstrates how concrete points of intersection composers treatments of telescopes and peepshows in opera for instance or a shadow play performance of a ballad could then fuel new modes of listening that aimed to extend the senses An illuminating look at romantic musical practices and aesthetics this book yields surprising relations between the past and present and offers insight into our own contemporary audiovisual culture [The Habsburgs](#) Paula Sutter Fichtner,2014-05-15 The death of Archduke Franz Ferdinand in Sarajevo in 1914 not only sparked the beginning of World War I it also initiated the beginning of the end of the six hundred year old Habsburg dynasty which fell apart when the war ended changing Europe forever But how did the Habsburgs come to play such a decisive role in the fate of the continent Paula Sutter Fichtner seeks to answer this question in this comprehensive account of the longest lived European empire Tracing the origins of the house of Habsburg to the tenth century Fichtner identifies the principal characters in the story and explores how they were able to hold together such a culturally diverse and multiethnic state for so many centuries She takes account of the intertwining of culture politics and society revealing the strategies that enabled the dynasty s extraordinarily long life its dazzling mix of cultural propaganda public performances and cunning political maneuvering She points out the irony that one of the crowd pleasing performances that had enabled the Habsburg success visiting beds of the injured led to Ferdinand s death and the empire s downfall Breathing fresh life into the history of the Habsburg reign this accessible and authoritative history charts one of the pivotal foundation stories of modern Europe
