Mundy, 2018-03-22 Winner Book Prize in Latin American Studies Colonial Section of Latin American Studies Association LASA 2016 ALAA Book Award Association for Latin American Art Arvey Foundation 2016 The capital of the Aztec empire Tenochtitlan was in its era one of the largest cities in the world Built on an island in the middle of a shallow lake its population numbered perhaps 150 000 with another 350 000 people in the urban network clustered around the lake shores In 1521 at the height of Tenochtitlan's power which extended over much of Central Mexico Hernando Cortés and his followers conquered the city Cortés boasted to King Charles V of Spain that Tenochtitlan was destroyed and razed to the ground But was it Drawing on period representations of the city in sculptures texts and maps *The Death of Aztec Tenochtitlan the Life of Mexico City* builds a convincing case that this global capital remained through the sixteenth century very much an Amerindian city Barbara E Mundy foregrounds the role the city's indigenous peoples the

Nahua played in shaping Mexico City through the construction of permanent architecture and engagement in ceremonial actions She demonstrates that the Aztec ruling elites who retained power even after the conquest were instrumental in building and then rebuilding the city Mundy shows how the Nahua entered into mutually advantageous alliances with the Franciscans to maintain the city's sacred nodes She also focuses on the practical and symbolic role of the city's extraordinary waterworks the product of a massive ecological manipulation begun in the fifteenth century to reveal how the Nahua struggled to maintain control of water resources in early Mexico City

Amerasia Elizabeth Horodowich, Alexander Nagel, 2023-09-05 A connected world as imagined by early modern European artists mapmakers and writers where Asia and the Americas were on a continuum America and Asia mingled in the geographical and cultural imagination of Europe for well over a century after 1492 Through an array of texts maps objects and images produced between 1492 and 1700 this compelling and revelatory study immerses the reader in a vision of a world where Mexico really was India North America was an extension of China and South America was marked by a variety of biblical and Asian sites It asks further What does it mean that the Amerasian worldview predominated at a time when Europe itself was coming into cultural self definition Each of the chapters focuses on a particular artifact map image or book that illuminates aspects of Amerasia from specific European cultural milieus Amerasia shows how it was possible to inhabit a world where America and Asia were connected either imaginatively when viewed from afar or in reality when traveling through the newly encountered lands Readers will learn why early modern maps regularly label Mexico as India why the Amazonas region was named after a race of Asian female warriors and why artifacts and manuscripts that we now identify as Indian and Chinese are entangled in European collections with what we now label Americana Elizabeth Horodowich and Alexander Nagel pose a dynamic model of the world and of Europe's place in it that was eclipsed by the rise of Eurocentric colonialist narratives in the nineteenth and twentieth centuries To rediscover this history is an essential part of coming to terms with the emergent polyfocal global reality of our own time

Rubens in Repeat Aaron M. Hyman, 2021-08-03 This book examines the reception in Latin America of prints designed by the Flemish artist Peter Paul Rubens showing how colonial artists used such designs to create all manner of artworks and in the process forged new frameworks for artistic creativity Peter Paul Rubens 1577-1640 never crossed the Atlantic himself but his impact in colonial Latin America was profound Prints

made after the Flemish artist's designs were routinely sent from Europe to the Spanish Americas where artists used them to make all manner of objects. Rubens in Repeat is the first comprehensive study of this transatlantic phenomenon despite broad recognition that it was one of the most important forces to shape the artistic landscapes of the region. Copying particularly in colonial contexts has traditionally held negative implications that have discouraged its serious exploration. Yet analyzing the interpretation of printed sources and recontextualizing the resulting works within period discourse and their original spaces of display allow a new critical reassessment of this broad category of art produced in colonial Latin America art that has all too easily been dismissed as derivative and thus unworthy of sustained interest and investigation. This book takes a new approach to the paradigms of artistic authorship that emerged alongside these complex creative responses focusing on the viceroyalties of New Spain and Peru in the seventeenth and eighteenth centuries. It argues that the use of European prints was an essential component of the very framework in which colonial artists forged ideas about what it meant to be a creator.
