Andrea Mantegna Narim Bender,2014-12-19 Andrea Mantegna made important contributions to the compositional techniques of Renaissance painting Like other artists of the time Mantegna experimented with perspective by lowering the horizon in order to create a sense of greater monumentality His stony metallic landscapes and somewhat rocky figures give

evidence of a fundamentally sculptural approach to painting His human forms were distinguished for their solidity expressiveness and anatomical correctness Mantegna developed a passionate interest in classical antiquity The influence of both ancient Roman sculpture and the contemporary sculptor Donatello are clearly evident in Mantegna s rendering of the human figure One of the key artistic figures of the second half of the 15th century Mantegna was the dominant influence on north Italian painting for 50 years [Andrea Mantegna](#) Dawson William Carr,1997 Andrea Mantegna s Adoration of the Magi is based on one of Christianity s best loved stories the arrival of the gift bearing Wise Men at the baby Jesus birthplace in Bethlehem While the simple Bible text is usually depicted with sweeping exotic pageantry here the subject is rendered with an intimate close up focus on the central characters in the scene In his fascinating study author Dawson W Carr examines Mantegna s innovative treatment of the theme in light of the main concerns of his art and the culture of his time His generously illustrated and detailed analysis provides a clear understanding of this compelling masterpiece which is one of the most popular and important paintings in the J Paul Getty Museum [**Mantegna: Paintings, Drawings, Engravings**](#) Andrea Mantegna,Erika Tietze-Conrat,1955 Reproductions of all his works eight in color A large number of doubtful works are discussed and reproduced in the catalogue [**Mantegna**](#) R. Part 2 Renata Cipriani, 1963 **Mantegna and Painting as Historical Narrative** Jack M. Greenstein, 1992-06 In this study Jack M Greenstein draws on Early Renaissance art theory modern narratology translation studies critical theory the philosophy of history and biblical hermeneutics to explicate the sense and significance of one of Andrea Mantegna's most enigmatic and influential works the Uffizi Circumcision of Christ Faced with a work that resists established methods of iconographical analysis Greenstein reassesses the nature and goals of high humanist narrative painting The result is a new historically grounded theory of iconography that calls into question many widely held assumptions about the social and intellectual value of Early Renaissance art Greenstein's theory rests on a careful analysis of Leon Battista Alberti's commentary *On Painting* which equated both the form and the content of artistically composed painting with *historia* Situating this equation within a centuries old discourse on the multivalent significance of the Bible Greenstein shows that for Alberti *historia* was a mode of artistic narrative common to literature and painting in which moral truths were presented to the corporeal senses particularly to vision in the guise of plausible human actions In Greenstein's reading the painter's primary task was the construction of a visually plausible narrative that effectively conveyed the higher meanings of *historia* Having thus delineated the structure of significance in Albertian painting Greenstein shows what was at stake when a painter of Mantegna's historical bent undertook to produce a *historia* As one of the leading historical thinkers of his age Mantegna imbued his depicted scenes with the plausibility of historical events by employing those codes of evidence causality and historical distance that underlay the Renaissance sense of the past But the Circumcision of Christ resisted such treatment because the symbolic conventions developed by earlier artists for conveying the higher theological meanings of the theme were incompatible with the representational fidelity embraced by painters of *historia* Mantegna overcame these difficulties by arriving at a new understanding of the Circumcision which remained faithful to the narrative structure as well as the theological content of the biblical account His interpretation was widely adopted by later artists but was so pictorial in nature that despite its consistency with the biblical account it remained without parallel in theological literature Greenstein's discovery that artistic production of Albertian painting was a specialized and singularly visual form of thinking whose roots lay more in readerly hermeneutics than in perception commerce or common visual experience raises questions about

narrative representation and the textuality of art that will interest a wide array of scholars
