Margaret Drabble Existing Within Structures:

Margaret Drabble, Existing Within Structures Molly Hurley Moran, 1983 Though often proclaimed a woman's writer Margaret Drabble is ultimately concerned with larger philosophical and psychological issues the most important being the question of the human will Moran sees Drabble's fiction as being focused more on the problems which confront both men and women of living in the bewildering contemporary world It is a world of IRA terrorism aborted fetuses and suicide but it is also a world of homecoming parties homebaked bread and waterfalls It is a world where in spite of the fact that a human being is a tiny powerless speck in a turbulent menacing universe there are redeeming qualities to the position There is both beauty and humor in the condition of being human Drabble's novels hold up for our admiration people who perceive these qualities of life in spite of its prevailing gloom For Drabble the psychological and physical connections of family provide both spiritual and psychological solace Although the family curtails individual freedom by influencing one's character and imposing familial responsibilities it is ultimately a bulwark against life's turbulence and uncertainties **Existing Within Structures**, 1980

Existing Within Structures Molly Hurley Moran, 1980 The Novels of Margaret Drabble Nicole Suzanne Bokor, 1998 Contemporary British novelist Margaret Drabble has enjoyed popularity and critical acclaim for more than thirty years While the author's fatalistic vision has been formerly analyzed by critics of her work what has not been assessed in previous texts is the way in which her theories of psychological determinism affect her heroines' lives and in many cases are compatible with much of Freud and his successors' psychoanalytic thinking The purpose of *The Novels of Margaret Drabble* this Freudian family nexus then is to examine the writer's fatalism by investigating the ways in which her vision resembles the psychoanalytic tradition Dr Nicole Bokor's psychobiography focuses on Drabble's fascination with troubling familial relationships It explores the connections between personal history including the relevant fact that her older sister is the renowned novelist A S Byatt and literary representation **Writing the Woman Artist** Suzanne W. Jones, 2016-11-11 I mean what is a woman I assure you I do not know I do not believe that you know I do not believe that anybody can know until she has expressed herself in all the arts and professions open to human skill Virginia Woolf *Professions for Women* *Writing The Woman Artist* is a collection of essays that explores the ways in which women writers portray women painters sculptors writers and performers Surveying the works of a variety of women writers from the nineteenth and twentieth centuries from different ethnic national racial and economic backgrounds this book treats their revisions of the Kinstlerroman and their perceptions of the relationships between muse artist and audience in other genres Suzanne W Jones and her collaborators seek to understand how representations of women artists and their poetics and politics are mediated by social and historical factors including literary movements and theories of language In doing so they make an important contribution to the field of feminist scholarship and generate new ways of understanding how the dynamics of creativity intersect with the dynamics of gender Contributors to the volume are Ann Ardis Alison Booth Kathleen Brogan Lynda Bundtzen Pamela Caughie Mary

DeShazer Linda Dittmar Josephine Donovan Susan Stanford Friedman Gayle Greene Linda Hunt Katherine Kearns Holly Laird Estella Lauter Z Nelly Martinez Jane Atteridge Rose Margaret Diane Stetz Renate Voris and Mara Witzling Writing The Woman Artist is a valuable new resource for scholars and students working in the fields of European and American literature and women's studies

The Suppressed Sister Amy K. Levin, 1992 Contentious behavior among biological sisters frequently contradicts ideals of sisterhood in novels by women Additionally feminist criticism focusing on almost every imaginable relationship involving women has all but ignored sisters Amy K Levin's *The Suppressed Sister* studies these circumstances their causes and consequences How and why is the sister bond suppressed in favor of sisterhood Answers to this question may be found in female psychology social expectations and patriarchal myths and stories The tales of Cinderella and Psyche are paradigmatic providing models of female competition and inscribing a conclusion that replaces sisterly closeness with heterosexual romance Jane Austen's sister plot is based on these models Her characters divide into pairs and adopt complementary personalities but polarization does not erase competition instead marriage erects social and economic barriers which enforce role divisions In *Wives and Daughters* Cranford and *The Life of Charlotte Bronte* Elizabeth Gaskell shows the danger of too close an attachment to the paternal home She too emphasizes differences revealing how they ultimately lead siblings to seek a sisterhood outside the family In *Mill on the Floss* Middlemarch and *Daniel Deronda* George Eliot paints increasingly negative portraits of sisters indicating that female siblings create differences where few or none exist These denials of similarity heighten the heroines isolation Twentieth century novelists including Barbara Pym Elizabeth Jane Howard and Margaret Drabble revise their predecessors texts drafting a plot after the father's They reject rules governing female behavior and question the expectation that women must get along with one another Finally Emma Tennant's *Bad Sister* together with several recent American novels abandons the conventions of the realistic novel challenging the very concept of character Tennant undermines all distinctions including those that treat sisters as separate individuals and those that classify certain behaviors as good or bad These novels show a progression that has been ignored or suppressed by feminist critics many of whom long for an idyll of sisterhood inherited from nineteenth century portraits of the angel in the house In denying anger or antagonism women cut off a part of themselves just as Cinderella's stepsisters amputate their toes to fit in her brittle glass slipper Levin's book questions the rationale behind such self destruction

British Women Writing Fiction Abby H.P. Werlock, 2000-02-09 Original essays by American and British scholars offer a reader friendly introduction to the work of Angela Carter Doris Lessing and a dozen other British women writers British women in the second half of the 20th century have produced a body of work that is as diverse as it is entertaining This book offers an informal jargon free introduction to the fiction of sixteen contemporary writers either brought up or now living in England from Muriel Spark to Jeanette Winterson British Women Writing Fiction presents a balanced view comprising women writing since the 1950s and 1960s those who attracted critical attention during the 1970s and 1980s and those who have burst upon the literary scene more recently including African Caribbean and African women The essays show how all of these writers treat British subjects and themes sometimes from radically different perspectives and how those who are daughters of immigrants see themselves as women writing on the margins of society Abby Werlock's introduction explores the historical and aesthetic factors that have contributed to the genre showing how even those writers who began in a traditional vein have created experimental work The contributors provide complete bibliographies of each writer's works and selected bibliographies of criticism Exceptional both in its breadth of subjects covered and critical approaches taken this book provides essential background that will enable readers to appreciate the singular merits of each writer It offers an approach toward better understanding favorite authors and provides a way to become acquainted with new ones

Re-Siting Queen's English, 2022-07-11 **The Fiction of Margaret Drabble and Anita Desai** Ranu Uniyal, 2000 **Abortion, Choice, and Contemporary Fiction** Judith Wilt, 1990-06-28 In recent years public debate has raged over the issue of maternal choice While personal testimony and political argument have received widespread attention artistic representations of birth and abortion have been submerged Judith Wilt offers the first look at how contemporary writers tell and retell the stories that shape our perceptions about abortion She reveals that the struggle to plot these painful complex narratives of choice control guilt loss and liberation has preoccupied an astonishing number of our most distinguished novelists male and female alike Readers of twentieth century novels are more likely to encounter plots centered on maternal choice than those dealing with the more traditional problems of courtship and marriage In the opening of the book Wilt discusses real case histories of several women After studying the ambiguities of their decisions she turns to their counterpoints depicted in contemporary fiction Working from a feminist perspective Wilt traces the theme of maternal choice in works by Margaret Atwood Margaret Drabble Joan Didion Mary Gordon Alice Walker

Toni Morrison Gloria Naylor Marge Piercy Thomas Keneally Graham Swift Ernest Hemingway William Faulkner John Barth John Irving and others Behind the political medical and moral debates on abortion Wilt argues is a profound psychocultural shock at the recognition that maternity is passing from the domain of instinct to that of conscious choice Although never wholly instinctual maternity's potential capture by consciousness raises complex questions The novels Wilt discusses portray worlds in which principles are endangered by sexual inequality male power and hidden male fear of abandonment impotence female submission and covert rage and in the case of black maternity the hideous aftermath of slavery Wilt provides a resonant new context for debates whether political or personal on the issue of abortion and maternal choice Ultimately she enables us to rethink how we shape our own identities and lives
