## Margin For Terror 1974:

**Memory from the Margins** Bridget Conley, 2019-03-13 This book asks the question what is the role of memory during a political transition Drawing on Ethiopian history transitional justice and scholarly fields concerned with memory museums and trauma the author reveals a complex picture of global transnational national and local forces as they converge in the story of the creation and continued life of one modest museum in the Ethiopian capital Addis Ababa the Red Terror Martyrs Memorial Museum It is a study from multiple margins neither the case of Ethiopia nor memorialization is central to transitional justice discourse and within Ethiopia the history of the Red Terror is sidelined in contemporary politics From these nested margins traumatic memory emerges as an ambiguous social and political force The contributions meaning and limitations of memory emerge at the point of discrete interactions between memory advocates survivor docents and visitors Memory from the margins is revealed as powerful for how it disrupts not builds new forms of community *The Northern Ireland Conflict on the Margins of History* Kenneth Funston, Cillian McGrattan, 2025-05-01 Assessing the impact of paramilitary violence on border Protestants in Northern Ireland remains a critically overlooked part of the region's history Remembered through a framework of memory that blurs the boundary between victim and perpetrator existing scholarship often disempowers border Protestants by obscuring their experience under the Provisional IRA's campaign This re-examination of the conflict illuminates how the Troubles impacted the Protestant community's physical economic and cultural presence in the border counties Combining oral history with a broader assessment of the Provisional campaign this book presents a compelling case study for viewing this violence as a form of ethnic cleansing

**The Italian State and International Terrorism, 1969-1986** Valentine Lomellini, 2024-01-08 This book sheds light on the so called Moro Doctrine an Italian state security policy which has been portrayed in literature as an under the counter agreement made between Italy and Palestinian movement during the Cold War The Moro Doctrine or Lodo Moro as it is known in Italy aimed to protect the peninsula from Palestinian attacks by allowing terrorists to use Italian territory as a base for weapons and guerrilla fighters Responsibility for the Lodo was instrumentally placed on Aldo Moro the five time Prime Minister of Italy after his death and since then his name has become indelibly linked with the shame of having negotiated with Palestinian terrorists Thanks to records collected from over twenty archives in Italy the USA France Germany Britain and Russia concrete evidence shows that the significance of this agreement needs to be rethought The author argues that the decision to adopt the Lodo was not solely made by Moro but also involved key figures of the Christian Democrat and Socialist parties various magistrates and even the President of the Republic It illustrates how terrorism was used as an effective tool in international diplomacy to influence foreign and domestic policies Offering a re-examination of Italian counter terrorist policy this book analyses how Italy responded to international terrorism during the Cold War providing a useful read for those researching Italian and European history Cold War studies the history of international relations and diplomacy and Middle East history Executive

Measures, Terrorism and National Security Professor David Bonner, 2013-01-28 David Bonner presents an historical and contemporary legal analysis of UK governmental use of executive measures rather than criminal process to deal with national security threats. The work examines measures of internment, deportation and restriction on movement deployed in the UK and along with the imposition of collective punishment also in three emergencies forming part of its withdrawal from colonial empire Cyprus, Kenya and Malaya. These situations along with that of Northern Ireland are used to probe the strengths and weaknesses of ECHR supervision. It is argued that a new human rights era ushered in by a more confident Court of Human Rights and a more confident national judiciary armed with the HRA 1998 has moved us towards greater judicial scrutiny of the application of these measures, a move away from unfettered and unreviewable executive discretion.

*Countering Terrorism* Arnold M. Howitt, Robyn L. Pang, 2003 Ways in which federal, state and local institutions should integrate their efforts to prepare for future terrorist threats.

*The Impact, Legitimacy and Effectiveness of EU Counter-Terrorism* Fiona de Londras, Josephine Doody, 2015-04-10 Counter terrorism law and policy has been prominent and widespread in the years following 9/11, touching on many areas of everyday life from policing and border control to financial transactions and internet governance. The European Union is a major actor in contemporary counter terrorism including through its development of counter terrorism laws for application within the Union. This book undertakes a multi disciplinary and empirically informed analysis of the impact, legitimacy and effectiveness of EU counter terrorism. Taking into account legal, societal, operational and democratic perspectives, this collection connects theoretical and practical perspectives to produce an interdisciplinary and multi stakeholder study of how we might measure and understand the impact, legitimacy and effectiveness of EU counter terrorism. Bringing together a select group of experts in the field, particular emphasis is placed on understanding the practical experience of implementing and assessing these measures gathered from and with end users including law makers, policy makers, security services, industry partners and civil society. This edited collection will be of great relevance to scholars and policy makers with an interest in counter terrorism law, EU law and security studies.
