## **Marine Oil Pollution:**

*Response to Marine Oil Pollution* Douglas Cormack, 2013-04-17 *Response to Marine Oil Pollution Review and Assessment* is the essential source book now updated for all involved in marine oil pollution consequences and response. It covers policy planning and operations and provides technical assessment of the true nature of the problem of the means to maximise the performance of current techniques and equipment and of the bases for future improvements. This book provides a fundamental understanding of the oil properties and processes which determine the persistence and impacts of oils in the marine environment. It establishes parameters against which to evaluate performance of all current techniques and equipment and the environmental impacts of their use. It identifies design parameters and makes proposals for the creation and development of more effective equipment and techniques. The book also shows how a fresh approach to cargo transfer and the scaling of spillage response provision to oil releases on immediate impact will be more effective overall and will ensure that approved waste handling and disposal facilities are not overwhelmed. The recent Sea Empress incident is reviewed to illustrate the points made and conclusions reached and to emphasise the need for thorough salvage planning for all future incidents.

**Ghost Marine Oil Spills** Amran Al-Kamzari, Tim Gray, Grant Burgess, Clare Fitzsimmons, 2025-02-05 This book investigates the problem of ghost or untraceable small scale oil spills at sea. Ghost spills which are spills for which the spillers cannot be traced are much more common than traceable spills and small scale spills are much more common than large scale spills. This is something of a unique study as the subject of small scale ghost spills is very much under researched despite its importance. Small scale ghost spills cause a significant amount of ecological, environmental, economic and social damage and are a violation of environmental justice because the perpetrators escape having to pay for clean up and compensation. Instead of the polluter paying the polluted coastal communities which are often impoverished end up bearing these costs. This is clearly unfair. The Musandam Peninsula serves as a case study because of its strategic location in the Strait of Hormuz, a major oil transport route in the Arabian Gulf. Residents report that oil slicks and tar balls on Musandam's coast result from tanker and ship discharges in the Strait of Hormuz. There are compensation schemes available to meet the costs of marine oil spills but they generally require proof that a spill has been caused by a vessel and such proof is very hard to obtain in the case of small scale ghost spills. The stakeholders interviewed in this study emphasized the need for greater community involvement in decision making over dealing with small scale ghost spills. The book could be adopted as recommended reading for MSc modules on Marine Pollution Control, Environmental Impact of Oil Spills, Maritime Law, Environmental Regulations and Coastal Management and Conservation.

Oil Pollution in the North Sea Angela Carpenter, 2015-11-27 This volume offers a review of measures taken at different levels to prevent oil inputs to the North Sea from sources such as shipping and oil installations. A range of data from satellites, remote sensing, aerial surveillance, in situ monitoring, oil spill sampling and beached bird surveys presents a comprehensive portrait of trends in oil pollution over many

years Topics include Bonn Agreement based actions to eliminate illegal and accidental pollution from ships OSPAR monitoring of oil installations EMSA CleanSeaNet activities and an internationally approved common standard for oil spills presented by the Bonn OSINet A chapter on the role of the IMO in preventing oil pollution from ships provides an international context while others discuss efforts being made at the national level A decadal review of the state of the North Sea prepared by OSPAR supports the view that there has been a significant reduction of oil inputs to the sea This thorough review addresses national and international agencies and government bodies as well as policymakers and practitioners in the fields of shipping ports and terminals oil extraction and marine management Further it provides researchers with essential reference material on tools and techniques for monitoring oil pollution and offers a valuable resource for undergraduate and post graduate students in the field of marine oil pollution Response to Marine Oil Pollution Douglas Cormack,2014-01-15 *Marine Oil Pollution* ,1981 *Marine Oil Spills 2018* Merv Fingas,2019-04-18 The mitigation of oil spills is an important facet of environmental protection Understanding oil spills is a first step toward preventing and minimizing their damage to the environment This compilation presents several of the current studies related to such an understanding of oil spills and the environment This book is a compilation of 14 papers presenting new developments in the field of oil spills giving insight into the rapidly changing world of oil spill studies and technology The 14 papers included cover topics varying from risk analysis to oil spill remote sensing Broadly categorized included are six papers on modeling four papers on remote sensing three papers on risk assessment and one paper on oil spill countermeasures Each paper presents a unique insight into a facet of oil spill research and technology The authors of these papers represent many different countries and affiliations around the world **Bioremediation for marine oil spills.** , *Marine Oil Pollution Response* Canadian Coast Guard,1989 Pamphlet describing the federal government s Canada Shipping Act where it relates to oil spills along with the 1989 amendments and the place of the Canadian Coast Guard in dealing with oil spills Also included are the behaviour of oil at sea the Canadian response capability transfer equipment shoreline protection and or restoration and cleanup in open waters *Marine Oil Pollution* Queensland.
