Maritime Disasters:

Final Voyage Jonathan Eyers, 2013-01-01 Everyone knows the story of the Titanic but in terms of loss of life that catastrophe doesn't even figure as one of the 50 worst maritime disasters of the last three hundred years. The causes of disaster are legion besides icebergs and enemy torpedoes ships have been sunk by fire, explosions, flooding, capsizing, storms, collisions, and human error. Ships featured include Wilhelm Gustloff, how history forgot the 10,000 killed Lancastria, why Britain's worst disaster was covered up, Mont Blanc, the ship that destroyed a city, Sultana, triumph and tragedy on the Mississippi, Dona Paz, the deadliest disaster in living memory. With disasters from all over the world, these are stories of the people, whether they lived or died, as well as the ships. They are stories of tragedy, war, heroism, and cowardice, greed, and sacrifice. Only for the lucky few were they also stories of rescue and survival. **Disaster Medicine** David E.

Hogan, Jonathan L. Burstein, 2007 Written by more than 30 emergency physicians with first-hand experience handling medical care during disasters, this volume is the only single comprehensive reference on disaster medicine. It provides the information that every emergency department needs to prepare for and handle the challenges of natural and manmade disasters. The contributors present guidelines for assessing the affected population's health care needs, establishing priorities, allocating resources, and treating individuals. Coverage encompasses a wide range of natural, industrial, technologic, transportation-related, and conflict-related disasters with examples from around the world. This edition has more illustrations and more information on weapons of mass destruction and explosions. **Shipwrecks and Other Maritime Disasters of the Maine Coast** Taryn Plumb, 2021-03-01

With its incessant fogs and infamously craggy coast, Maine has long been a bane of mariners. Scores of vessels and countless lives have been lost on its rocky shores. Taryn Plumb explores the tragic history of shipwrecks in Maine, focusing on a dozen or so of the most interesting and weaving in tales of pirates, lost treasure, violent storms, and other disasters. Maine's role in shipbuilding is legendary, and the history of vessels meeting their demise here is equally compelling. **Shipwrecks: Australia's Greatest Maritime Disasters** Evan McHugh, 2005-03-01

From the first wreck in 1622 off Western Australia to the tragedy of the 1998 Sydney to Hobart Yacht Race, Evan McHugh captures all the drama of Australia's maritime history. There are swashbuckling mutineers, violent storms, uncharted reefs, enemy warships, as well as ripping yarns about Dutchmen and lascars, Aborigines, and escaped convicts. In producing this remarkable book, McHugh has made extensive use of first-hand accounts and contemporary records. With characteristic flair, he also delves into the mysteries and controversies that still surround so many of the wrecks. Shipwrecks is a white-knuckle voyage through chaos and tragedy, which proclaims the courage and strength of the human spirit. It is a powerful reminder that even in the twenty-first century, the sea remains a great unconquered frontier. *Shipwrecks* David Ritchie, 1999-10-01 From cowardly captains and deadly icebergs to mutinies and nuclear submarine wrecks, this work chronicles the world's most amazing maritime disasters. Wrecks like those of the Titanic and Lusitana are the stuff of legends, but what about the others throughout history?

BOOK JACKET **Stranded** Aaron Saunders, 2015-10-24 The sinking of the Canadian Pacific steamship *Princess Sophia* was Alaska's worst maritime disaster until it nearly happened again. In 1918, the Canadian Pacific steamship *Princess Sophia* left Skagway, Alaska, on her last trip of the season to Vancouver. She never made it. Battered by a raging snowstorm and sent dangerously off course, she ran aground on Vanderbilt Reef, a rocky shoal in Lynn Canal, North America's deepest and longest fjord. She would spend two days high and dry on the reef with rescue ships standing by, unable to help, before she finally slid to her watery grave. Seventy-six years later, another ship, the modern *Star Princess*, finds herself off course in Lynn Canal, and history nearly repeats itself. Weaving together events past and present, Aaron Saunders tells the story of two very different ships that set sail from Skagway at

opposite ends of the century Their common bond the unassuming and often treacherous stretch of water known as Lynn Canal

America's Deadliest Shipwrecks Charles River Editors, 2016-05-28 Includes pictures Includes contemporary accounts of the disasters Includes online resources and bibliographies for further reading Includes a table of contents The Sultana is a historical footnote because of the Civil War but it was also intimately tied to the war Although Robert E Lee's surrender to Ulysses Grant at Appomattox was not technically the end of the Civil War it took one of the last remaining Confederate armies out of the field In fact just the day before the disaster as the Sultana was sailing up the Mississippi River to her rendezvous with destiny Union Army soldiers cornered and killed Lincoln's assassin John Wilkes Booth Perhaps the cruelest irony of the disaster is that the Sultana was packed full of men who had survived every conceivable trial and tribulation of the war from wounds and sicknesses to being prisoners Having lost hundreds of thousands America was almost numb to the loss of a couple of thousand more especially when many of the dead were soldiers themselves and in a sense it was left for future generations to try to unravel what went wrong and to pay tribute to the men who died on that dark night Under normal conditions a ship that sank with more than 1 000 passengers aboard most of whom died would be big news yet today the sinking of the PS General Slocum is often overlooked if not entirely forgotten While it might have generated the type of publicity and reaction of the Johnstown Flood of 1889 or the Galveston Hurricane of 1900 under normal circumstances deadliest disaster in New York City's history before 9 11 and the second deadliest maritime disaster in peacetime in American history has become something of a historical footnote On June 15 1904 an annual gala was held on the passenger ship PS General Slocum as it steamed up the East River with about 1 400 people from St Mark's Evangelical Lutheran Church Consisting mostly of German immigrants the boat was packed with women and children and when a small fire started on the ship shortly after the trip began faulty equipment was unable to put it out or stop it from spreading On top of that the lifeboats were tied up and the crew which never conducted emergency drills was unprepared for a potential disaster When parents put life preservers on their children and then had them enter the water they soon learned that the life preservers were also faulty and didn't float As the disaster unfolded over 1 000 passengers burned to death or drowned many swept under the water by the East River's current and weighed down by heavy wool clothing Few people on board knew how to swim exacerbating the situation and eventually the overcrowded decks began to collapse crushing some unfortunate victims When people discuss deadly maritime disasters during the second decade of the 20th century in which more than 800 people were killed they're often talking about the Titanic or Lusitania not the Eastland on the Chicago River However shockingly enough on July 24 1915 a ship full of sightseers out for a day on the Great Lakes capsized while still tied to a dock sending more than 2 500 passengers into the frigid water By the time the ship was righted and rescue efforts were completed nearly 850 people had been killed As unbelievable as the incident seemed the Eastland was actually susceptible to just such a problem as a result of its issues with listing and on top of that the ship seemed to have all sorts of bad luck in its

past including a collision with another boat and even a mutiny on board. If anything, the safety protocols established after the sinking of the Titanic, most notably the inclusion of enough lifeboats on board for every passenger, made the Eastland even more top heavy and contributed to the disaster. Ultimately, several individuals were charged with crimes in connection with the Eastland disaster, but none would be found guilty. *Maritime Disasters* Elaine Landau, 1999 Examines some of history's most tragic accidents at sea including the shipwrecks of the Titanic, Lusitania, and Andrea Doria.
