Mario Botta:

Mario Botta Mario Botta, 1993 *Mario Botta The Complete Works* is the only complete edition of Botta's creative work co-designed and authorized by the architect himself; it is now internationally recognized as the definitive work on Botta. These volumes draw a complete picture of Mario Botta's creative work as an architect, furniture designer, and exhibition and stage designer. Volume highlights include the Museum of Modern Art in San Francisco, the cathedral in Evry, the mountain church on Monte Tamaro, Ticino, the bank at Aeschenplatz, and the recently opened Tinguely museum, both of which are located in Basel. The newest projects are also introduced, such as the municipal library in Dortmund and the synagogue in Tel Aviv.

Mario Botta Irena Sakellaridou, 2000 This volume presents the work of the Swiss-born architect who worked as an assistant to such architecture giants as Le Corbusier and Louis I Kahn before starting his own firm in 1970 and achieving international fame. Botta's characteristic respect for topographical conditions and regional sensibilities, his deft craftsmanship, and the importance of geometric order in his work are evidenced in thirty projects that range from smaller residential buildings to such grandiose projects as the Church of San Giovanni Battista, the Jean Tinguely Museum, and most famously the San Francisco Museum of Modern Art. This detailed study also includes the designs he created for furniture and the stage. *Mario Botta Architectural Poetics* is a thorough survey of the architectural and design work that launched Botta into the pantheon of modern architecture. **BOOK JACKET** Title Summary field provided by Blackwell North America Inc. Mario Botta, 2000 Botta Bechtler Museum of Modern Art, 2013 *Mario Botta Architetti* Mario Botta, Mario Botta Architetti, 2017 Showcases Mario Botta's portfolio of projects and contemporary design talents in stunning full-colour photography with detailed plans and drawings and comprehensive profile descriptions. Celebrates almost 40 works of this prolific architect and is a superb compendium to *IMAGES* highly successful Leading Architects Series. Profiles the insight into the influences of this firm and its practice while capturing its vision for the future of design, emerging trends, and influences that shape its work. We recognize Mario Botta's buildings for their strong presence. His architecture is not ephemeral. It shapes the mass firmly and precisely. It touches the ground with self-reliance. A building by Mario Botta is an autonomous object. It comprises an ordered world of its own make. It is standing in dialogue with the urban tissue but it establishes its own order as if it aims at differentiation instead of integration. Architectural order represents the core of his personal idiom. It is a well-structured compositional order which organises everything into a whole as an underlying thread that connects and brings together houses on the mountains to museums and churches, banks and commercial buildings to buildings on the ground and buildings underground, different buildings at different places in time. The themes that underlie Mario Botta's architecture are ties that connect and spines that support common threads that bind one building to the next. His architecture is one of mass. It is then of no surprise that mass is the first thing to be defined and ordered in his creative process. The volume of his buildings is mostly composed by one or more primary solids. Volume is thus an a priori for Botta. It

is conceived beforehand the starting point to the adventure of architectural design Mario Botta Mario Botta,1981
