The Handbook of Research in World Language Instruction Victoria Russell, Kathryn Murphy-Judy, Francis John Troyan, Aleidine J. Moeller, Krishauna Hines-Gaither, 2025-06-05 This seminal handbook provides a comprehensive overview of the research on world language education and how that research can transform into effective and daily instructional practices for K-16 language teachers. With contributions from leading scholars in the field, the volume addresses cutting-edge research trends and practice. Covering key topics in language education, the volume is organized in six sections: Teaching Methods and Approaches; Culture, Pragmatics, and Intercultural Communicative Competence; Assessment and Program Evaluation; Diversity, Equity, and Inclusion in the World Language Classroom; Technology Integration and Online Language Teaching and Learning; and Key Issues in World Language Instruction, including advocacy, teacher recruitment and retention, and professional development. This handbook is an essential text for all scholars, researchers, and educators in world languages.

Indigenous Australians and the National Disability Insurance Scheme Nicholas Biddle, Fadwa Al-Yaman, Michelle Gourley, M. Gray, J. R. Bray, B. Brady, L. A. Pham, E. Williams, M. Montaigne, 2014-10-28 The National Disability Insurance Scheme (NDIS) is one of the major policy innovations of the early 21st century in Australia, representing a new way of delivering services to people with a disability and those who care for them. It has the potential to transform the lives of hundreds of thousands of people, giving them greater certainty and control over their lives. There is a higher incidence of disability in the Aboriginal and Torres Strait Islander population than in the Australian population more generally, so the NDIS is of particular relevance to Indigenous Australians. However, Indigenous Australians with a disability have a very distinct age, geographic, and health profile, which differs from that of the equivalent non-Indigenous population. Furthermore, the conceptualisation of disability and care in many Indigenous communities, particularly in remote areas, may differ markedly in comparison to more settled parts of the country, and there is the added complexity of a unique history of interaction with government. In considering these issues in detail, this Research Monograph provides a resource for policy makers, researchers, and service providers who are working in this important policy area. Its major conclusion is that the NDIS, if it is to be an effective policy for Indigenous Australians, needs to take into account their very particular needs and aspirations.
