Gathering the proceedings of the 8th International Conference on Digital Design and Communication Digicom 2024 held on November 7-9 2024 as a hybrid event in Barcelos, Portugal, this book continues the tradition of the previous ones reporting on new design strategies to foster digital communication within and between the society, institutions, and brands. By highlighting innovative ideas and reporting on multidisciplinary projects, it offers a source of inspiration for designers of all kinds, including graphic and web designers, UI/UX, and social media designers, and to researchers, advertisers, artists, and brand and corporate communication managers alike.

**Pedagogical Opportunities of the Review Genre** Maarit Jaakkola, 2024-06-28 Pedagogical Opportunities of the Review Genre unleashes the pedagogical potential of the review genre, reframing the act of reviewing of cultural products as a communicative practice from a pedagogical perspective. Negotiating between traditions of journalism and media studies and pedagogy, the author presents a novel approach that will increase the readers' understanding of an activity that is on the increase in an era where everyone can be a critic. She identifies, describes, and develops genre-based pedagogies in formal, non-formal, and informal contexts of learning and teaching in order to recontextualize the review as a form of learning and rethink of its potential as an inclusive, engaging, and a transformative critical cultural practice. This innovative and truly interdisciplinary study will interest students and researchers in the areas of media literacy, digital media, media and communication studies, cultural studies, sociology of arts, and pedagogical studies, in particular cultural journalism and criticism, audience studies, cultural production and cultural mediation, as well as critical media pedagogy and literacy studies.

As with literature, film can be used to inform, entertain, inspire, critical thinking, educate, and more. As such, it is a useful tool to implement in the classrooms of all levels and subjects. It is essential to explore the implementation of film in classrooms and the multiple teaching methodologies surrounding it. *Enhancing Education Through Multidisciplinary Film Teaching Methodologies* provides strategies that emphasize close reading, analysis, curricular connections, and composing through film. It examines both the theory and practice that surrounds the use of film in K-12 and postsecondary classroom instruction from a multidisciplinary perspective. Covering topics such as critical cultural awareness, literacy education, and film pedagogies, this premier reference source is an essential resource for preservice teachers, teacher educators, faculty, and administrators of both K-12 and higher education, librarians, researchers, and academicians.

**The Media in Your Life** Jean Folkerts, Stephen Lacy, 2004

What do reviewers have to say about *The Media in Your Life*? The text's strengths are on the emphasis on media history, convergence trends, and marketplaces. I also appreciate that the text is written at a sophisticated yet appropriate level for college students. Kim Smith (Iowa State University) The material covered is essential to the understanding of the current student in today's media culture. Jeanne Rollberg (University of Arkansas Little Rock) Authors that forget that they are teachers and try too hard to pretend they're the students' friends don't do their content justice, nor do they model appropriate writing for students to emulate. Folkerts and Lacy don't fall into this trap; they present material credibly, appropriately, and yet readably. Rebecca Lind (University of Illinois Chicago) The overall strengths of *Media in Your Life* are that it is exhaustively researched and attractively presented. The broad topic of mass media is effectively structured into an accessible format. Randall K. Pugh (Montana State University Billings) The book's emphasis on knowledge students can use in navigating our complex culture is a major strength. Its

organization is logical It is well documented It provides a solid summary of most significant media related issues of the day William Lingle Linfield College The authors have a good framework to present an overview of the structure and process of mass communication in the U S The text is visually appealing and will attract students interest Elizabeth Perse University of Delaware Community College Review ,2001 Library & Information Science Abstracts ,2006 School Psychology
