**Primitivism and Twentieth-Century Art** Jack Flam,Miriam Deutch,2003-03-27 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of African Vodun Art Psychology and Power For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for

intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of Noguchi East and West An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of The Death of Authentic Primitive Art and Other Tales of Progress An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of Icons Ideals and Power in the Art of Africa
