Low-Gravity Fluid Dynamics and Transport Phenomena Robert L. Sani,1990 *Microgravity Research in Support of Technologies for the Human Exploration and Development of Space and Planetary Bodies* National Research Council,Commission on Physical Sciences, Mathematics, and Applications,Space Studies Board,Committee on Microgravity Research,2000-08-03 The frontier represented by the near solar system confronts humanity with intriguing challenges and opportunities With the inception of the Human Exploration and Development of Space HEDS enterprise in 1995 NASA has acknowledged the opportunities and has accepted the very significant challenges Microgravity Research in Support of Technologies for the Human Exploration and Development of Space and Planetary Bodies was commissioned by NASA to assist it in coordinating the scientific information relevant to anticipating identifying and solving the technical problems that must be addressed throughout the HEDS program over the coming decades This report assesses scientific and related technological issues facing NASA s Human Exploration and Development of Space endeavor looking specifically at mission enabling and enhancing technologies which for development require an improved understanding of fluid and material behavior in a reduced gravity environment

Materials Processing in the Reduced Gravity Environment of Space: Volume 87 Robert H. Doremus,Paul C. Nordine,1987 The MRS Symposium Proceeding series is an internationally recognised reference suitable for researchers and practitioners

Van Nostrand's Scientific Encyclopedia Douglas M. Considine,Glenn D. Considine,2013-12-11 Advancements in science and engineering have occurred at a surprisingly rapid pace since the release of the seventh edition of this encyclopedia Large portions of the reference have required comprehensive rewriting and new illustrations Scores of new topics have been included to create this thoroughly updated eighth edition The appearance of this new edition in 1994 marks the continuation of a tradition commenced well over a half century ago in 1938 Van Nostrand s Scientific Encyclopedia First Edition was published and welcomed by educators worldwide at a time when what we know today as modern science was just getting underway The early encyclopedia was well received by students and educators alike during a critical time span when science became established as a major factor in shaping the progress and economy of individual nations and at the global level A vital need existed for a permanent science reference that could be updated periodically and made conveniently available to audiences that numbered in the millions The pioneering VNSE met these criteria and continues today as a reliable technical information source for making private and public decisions that present a backdrop of technical alternatives

September 6 9 2004 **Solid-state Combustion Synthesis of Ceramics and Alloys in Reduced Gravity** S. M. Valone,1988 Possible microgravity effects are explored in the combustion synthesis of ceramics and alloys from their constituent elements Molten intermediates are typically present during the combustion process thereby offering the chance for natural convection to take place Numerical simulations suggest that the combustion front in concert with gravity may act as a partial zone refinement mechanism which is attempting to sweep out porosity in the sample Contrary to suggestions by dimensional analysis no effects on the combustion rate are seen An analytical model of the combustion velocity as a function of the gravitational field and the spreading rate of molten material gives the correct order of magnitude of the gravity effect as measured by centrifuge experiments **ASM Handbook** D. M. Stefanescu,1988 Gives you a thorough yet easy to understand introduction to the principles of composition control gas evolution in melts and inclusion forming reactions as well as the basic concepts of crystal growth and solidification that aids you with interpretation of structures This volume discusses casting molding and coremaking practices in a series of articles that describe the basic steps and equipment associated with each process along with their advantages limitations and applications Each article is preceded by a review of the manufacture design and selection of patterns Book jacket **Microgravity Science and Applications Bibliography** ,1987 The Canadian Patent Office Record and Register of Copyrights and Trade Marks ,1925 **Materials Processing in the Reduced Gravity Environment of Space** ,1987 **Classification Bulletin of the United States Patent Office** ...
