

# TEN STEPS TO MINDFULNESS MEDITATION

## Create time & space.

Choose a regular time each day for mindfulness meditation practice, ideally a quiet place free from distraction.

## Set a timer.

Start with just 5 minutes and ease your way up to 15-40 minutes.

## Find a comfortable sitting position.

Sit cross-legged on the floor, on the grass, or in a chair with your feet flat on the ground.

## Check your posture.

Sit up straight, hands in a comfortable position. Keep neck long, chin tilted slightly downward, tongue resting on roof of mouth. Relax shoulders. Close eyes or gaze downward 5-10 feet in front of you.

## Take deep breaths.

Deep breathing helps settle the body and establish your presence in the space.

## Direct attention to your breath.

Focus on a part of the body where the breath feels prominent: nostrils; back of throat; or diaphragm. Try not to switch focus.

## Maintain attention to your breath.

As you inhale and exhale, focus on the breath. If attention wanders, return to the breath. Let go of thoughts, feelings or distractions.

## Repeat steps 6-7.

For the duration of meditation session. The mind will wander. Simply acknowledge this and return to your breath.

## Be kind to yourself.

Don't be upset if focus occasionally drifts or if you fall asleep. If very tired, meditate with eyes open and rearrange posture to more erect (but still relaxed) position.

## Prepare for a soft landing.

When the timer goes off, keep eyes closed until you're ready to open them. Be thankful. Acknowledge your practice with gratitude.

to eliminate needless suffering by cultivating insight into the nature of the material world and the workings of the mind. You do not label your sadness as something negative but carefully observe it and feel it without overthinking it. This can help you to quickly understand and then slowly let go of the emotion without overthinking or over reacting to it. Had you felt it was something negative you would have likely held on to it for long which may have made it turn into some form of mild depression. Mindfulness is not being aware just for the sake of it. You can be aware but with malice. For example a sniper who is aiming at an innocent victim is quite aware of what he/she is doing but this is not the type of awareness that has been presented in this book. Mindfulness is the opposite of this automatic pilot experience. This is because it involves paying attention to your immediate experiences without being swayed into automatic patterns of behaving and thinking. Mindfulness is a shift from the Doing Mode into the Being Mode. A mindfulness practitioner works with states of mind in order to abide peacefully in the midst of whatever comes their way. Through mindfulness you develop street smarts to manage your mind. It helps you to recognize when you also need to develop other qualities such as loving and kindness, alertness, effort and concentration so as to alleviate suffering skillfully. While mindfulness alone cannot guarantee your happiness it does provide a solid foundation upon which you can build factors needed for happiness. Keep in mind that mindfulness is usually discussed in terms of its function not as a goal itself. It is aimed at uprooting habits of the mind that cause unhappiness such as envy, anger, greed or any other habit that can harm you and others around you. Therefore meditation can instill in you the awareness of being in the present and accepting everything that comes with it openly, happily and nonjudgmentally. This is known as mindfulness and precisely what meditation cultivates in us. When you live in the moment you stop rehashing the past and all your failures, setbacks and mistakes. It holds neither do you panic about the future and what problems it will bring with itself. Not just that but you do not spend hours daydreaming about a very happy future or even keep recalling the good old memories. This is a beginner's guide to mindfulness meditation and you will be able to learn the following: History of Meditation, How Meditation Works, Benefits of Mindfulness and Meditation, Different Kinds of Meditation, How to prepare for meditation, Techniques to Practice Mindfulness Meditation, How Meditation Helps Reduce Stress and Anxiety, Declutter Your Mind, Mindful Meditative Practice and Simple Exercise Examples. Cultivating mindfulness into daily life. By the time you are done reading this book you will have discovered a newfound zest for life and will be motivated to live better by meditating regularly.
