Nursing Home Development William N. Breger,William R. Pomeranz,1985-01-01      **Minimum Property Standards for Nursing Homes** United States. Department of Housing and Urban Development,1968      Family Councils in Nursing Homes Gayle M. Boyle,Barbara K. Kauffman,1981-05      **Social Work Practice in Nursing Homes** Julie Sahlins,2010-06 A social worker's place within the hierarchy of a nursing home is not always clear yet the responsibilities are tremendous. Using her almost 20 years of experience as a social worker Julie Sahlins helps readers narrow the gap between academic training and real world practice. Social Work Practice in Nursing Homes presents a practical paradigm with a strong focus on creative use of the professional self program development and collaboration to meet the needs of a population that is often vulnerable, frail and isolated. Sahlins combines a solid analysis of systemic issues in this complex setting an understanding of the developmental needs of clients and clear logical advice that makes it possible to practice transformative social work. Here finally are answers to the constraints placed on social workers in nursing homes a new way of doing old business.

Resources for Renewal Satu Kalliola,Risto Nakari,1999-10-15 In the 1990s the public sector has experienced the same kind of productivity pressures as has the private sector in most of the western countries. In Finland the state and the local government organs have pursued to meet these demands by cutting down their personnel costs and by applying various models of New Public Management. This book sheds light on the possibilities of solving the problems in public sector modernization by changing the modes of operations of work organizations. The results presented in the book are based on development experiences in Finnish municipalities and cover a period of eight years 1991-1998. The participative approach is focused on the simultaneous development of the quality of working life and the productivity of services along the lines of Organizational Assessment. Thus the book addresses some of the central issues within the debate on action research and on the modernization of the public services such as top down and bottom up developments and the impact for the customers. A special feature in the book is a description of trade unions as actors in the development process and the role of trade union officials as developers.      Manual of NCHSR-sponsored research products applicable to comprehensive health planning Analytic Services, inc,1976      Health planning reports subject index United States.
