

MASTERS OF WAR

The background of the book cover is a photograph of a B-52 Stratofortress bomber aircraft in flight. The aircraft is seen from a head-on perspective, flying towards the viewer. It is carrying several large, dark, teardrop-shaped nuclear warheads under its wings and fuselage. The sky is filled with soft, white clouds, and the overall tone is somewhat somber and dramatic.

Enemy Civilian Casualties Ofer Fridman, 2019-03-13 Civil casualties and collateral damage have been long considered as an undesired outcome of military activity that has to be reduced While most of the contemporary discourse on this topic has

been primarily concentrating on three main factors the legal aspects of causing civil casualties the impact of war on local population and different factors of military professionalism required to avoid disproportional harm to civilians this book asks an entirely different question As the subject of civil casualties during military operations seems to be highly politicized this book takes this discourse out of its usual niches and suggests that the indirect responsibility rests with the politicians and the public which they represent When a society in the beginning of the 21st century sends its troops to a battle does it really care about the enemy civilian casualties To answer this question this book traces the political and cultural factors that have led to the failure of Non Lethal Weapons the great promise of the 1990s which was intended to make the war significantly less lethal than it was known before Examining three different cases this study explains that the idea of minimizing civil casualties is no more than an illusion and in fact neither politicians nor societies feel really stressed to change this situation

Paupp, 2007 Unique behind the scenes account of the Camp David peace talks *Left Curve* ,2007

Being and Belonging Katherine Pratt Ewing, 2008-06-12 The terrorist attacks of September 11 2001 instantly transformed many ordinary Muslim and Arab Americans into suspected terrorists In the weeks and months following the attacks Muslims in the United States faced a frighteningly altered social climate consisting of heightened surveillance interrogation and harassment In the long run however the backlash has been more complicated In *Being and Belonging* Katherine Pratt Ewing leads a group of anthropologists sociologists and cultural studies experts in exploring how the events of September 11th have affected the quest for belonging and identity among Muslims in America for better and for worse From Chicago to Detroit to San Francisco *Being and Belonging* takes readers on an extensive tour of Muslim America inside mosques through high school hallways and along inner city streets Jen nan Ghazal Read compares the experiences of Arab Muslims and Arab Christians in Houston and finds that the events of 9 11 created a cultural wedge dividing Arab Americans along religious lines While Arab Christians highlighted their religious affiliation as a means of distancing themselves from the perceived terrorist sympathies of Islam Muslims quickly found that their religious affiliation served as a barrier rather than a bridge to social and political integration Katherine Pratt Ewing and Marguerite Hoyler document the way South Asian Muslim youth in Raleigh North Carolina actively contested the prevailing notion that one cannot be both Muslim and American by asserting their religious identities more powerfully than they might have before the terrorist acts while still identifying themselves as fully American Sally Howell and Amaney Jamal distinguish between national and local responses to terrorism In striking contrast to the erosion of civil rights ethnic profiling and surveillance set into motion by the federal government well established Muslim community leaders in Detroit used their influence in law enforcement media and social services to empower the community and protect civil rights Craig Joseph and Barnaby Riedel analyze how an Islamic private school in Chicago responded to both September 11 and the increasing ethnic diversity of its student body by adopting a secular

character education program to instruct children in universal values rather than religious doctrine In a series of poignant interviews the school s students articulate a clear understanding that while 9 11 left deep wounds on their community it also created a valuable opportunity to teach the nation about Islam The rich ethnographies in this volume link 9 11 and its effects to the experiences of a group that was struggling to be included in the American mainstream long before that fateful day Many Muslim communities never had a chance to tell their stories after September 11 In *Being and Belonging* they get that chance
