*Masters of Light* ,1998    **Dutch Seventeenth-century Genre Painting** Wayne E. Franits,2004-01-01 The appealing genre paintings of great seventeenth century Dutch artists Vermeer Steen de Hooch Dou and others have long enjoyed tremendous popularity This comprehensive book explores the evolution of genre painting throughout the Dutch Golden Age beginning in the early 1600s and continuing through the opening years of the next century Wayne Franits a well known scholar of Dutch genre painting offers a wealth of information about these works as well as about seventeenth century Dutch culture its predilections and its prejudices The author approaches genre paintings from a variety of perspectives examining their reception among contemporary audiences and setting the works in their political cultural and economic contexts The works emerge as distinctly conventional images Franits shows as genre artists continually replicated specific styles motifs and a surprisingly restricted number of themes over the course of several generations Luxuriously illustrated and with a full representation of the major artists and the cities where genre painting flourished this book will delight students scholars and general readers alike

**The Ashgate Research Companion to Dutch Art of the Seventeenth Century** Wayne Franits,2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public s ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently

*Catholic Survival in the Dutch Republic* Genji Yasuhira,2025-10-01 Even in adversity Catholics exercised considerable agency in post Reformation Utrecht Through the political practices of repression and toleration Utrecht s magistrates under constant pressure from the Reformed Church attempted to exclude Catholics from the urban public sphere However by mobilizing their social status and networks Catholic Utrechters created room to live as pious Catholics and honourable citizens claiming more rights in the public sphere through their spatial practices and in discourses of self representation This book explores how Catholic priests and laypeople cooperated and managed to survive the Reformed regime by participating in a communal process of delimiting the public continuing to rely on the medieval legacy and adapting to early modern religious diversity Deploying their own understandings of publicness Catholic Utrechters not only enabled their survival in the city and the

Catholic revival in the Dutch Republic but also contributed to shaping a multi religious society in the Northern Netherlands

Guilds, Innovation and the European Economy, 1400-1800 S. R. Epstein, Maarten Prak, 2008-03-31 For a long time guilds have been condemned as a major obstacle to economic progress in the pre industrial era This re examination of the role of guilds in the early modern European economy challenges that view by taking into account fresh research on innovation technological change and entrepreneurship Leading economic historians argue that industry before the Industrial Revolution was much more innovative than previous studies have allowed for and explore the different products and production techniques that were launched and developed in this period Much of this innovation was fostered by the craft guilds that formed the backbone of industrial production before the rise of the steam engine The book traces the manifold ways in which guilds in a variety of industries in Italy Austria Germany Switzerland France Belgium the Netherlands and Britain helped to create an institutional environment conducive to technological and marketing innovations
