Shouting at Amen Corner Ron Green, 1999 *Shouting at Amen Corner* is a collection of the best of Ron Green's columns and articles from his 45 years of covering the Masters for *The Charlotte News* and *The Charlotte Observer*. It's a book about Hogan Palmer Nicklaus Watson Faldo and Woods but it's also about Norman Weiskopf Miller and others who have come so close only to see the Green Jacket slip away at the last moment. This book is unique in that it recounts history as it was being made and offers a special intimacy and perspective. Not a behind-the-scenes expose about members' money and power but a story of golf's greatest showcase event and the players who have created cherished memories over the last five decades.

The Academy of Science and Art, 1810 **Assessment of Simulator-based Training for the Enhancement of Cadet Watch Officer Performance**, 1982 **Nan-Ching** Paul U. Unschuld, 2022-08-19 Although the study of traditional Chinese medicine has attracted unprecedented attention in recent years, Western knowledge of it has been limited because until now not a single Chinese classical medical text has been available in a serious philological translation. The present book offers for the first time in any Western language a complete translation of an ancient Chinese medical classic, the *Nan ching*. The translation adheres to rigid sinological standards and applies philological and historiographic methods. The original text of the *Nan ching* was compiled during the first century A.D. by an unknown author. From that time forward, this ancient text provoked an ongoing stream of commentaries. Following the Sung era, it was misidentified as merely an explanatory sequel to the classic of the Yellow Emperor, the *Huang ti nei ching*. This volume, however, demonstrates that the *Nan ching* should once again be regarded as a significant and innovative text in itself. It marked the apex and the conclusion of the initial development phase of a conceptual system of health care based on the doctrines of the Five Phases and yinyang. As the classic of the medicine of systematic correspondence, the *Nan ching* covers all aspects of theoretical and practical health care within these doctrines in an unusually systematic fashion. Most important is its innovative discussion of pulse diagnosis and needle treatment. Unschuld combines the translation of the text of the *Nan ching* with selected commentaries by twenty Chinese and Japanese authors from the past seventeen centuries. These commentaries provide insights into the processes of reception and transmission of ancient Chinese concepts from the Han era to the present time and shed light on the issue of progress in Chinese medicine. Central to the book and contributing to a completely new understanding of traditional Chinese medical thought is the identification of a patterned knowledge that characterizes, in contrast to the monoparadigmatic tendencies in Western science and medicine, the literature and practice of traditional Chinese health care. Unschuld's translation of the *Nan ching* is an accomplishment of monumental proportions. Anthropologists, historians, and sociologists as well as general readers interested in traditional Chinese medicine but who lack Chinese language abilities will at last have access to ancient Chinese concepts of health care and therapy. Filling an enormous gap in the literature, *Nan ching: The Classic of Difficult Issues* is the kind of landmark work that will shape the study of Chinese medicine for years to come. This

Sufi Bodies Shahzad Bashir, 2013-09-01 Bashir weaves a rich history of Sufi Islam around the depiction of bodily actions in Sufi literature and miniature paintings produced circa 1300-1500 CE Focusing on the Persianate societies of Iran and Central Asia he explores medieval Sufis' conception of the human body as the primary shuttle between interior batin and exterior zahir realities with particular attention to three arenas: religious activity in the form of rituals, rules of etiquette, asceticism, and a universal hierarchy of saints; the deep imprint of Persian poetic paradigms on the articulation of love, desire, and gender; and the reputation of Sufi masters for working miracles which empowered them in all domains of social activity Bashir ultimately offers a new methodology for extracting historical information from religious narratives Cover p 4
