Mastery Of Your Specific Phobia Therapist Guide Therapyworks:

Mastery of Your Specific Phobia Michelle G. Craske, Martin M. Antony, David H. Barlow, 1997 Mastery of Your Specific Phobia is an empirically supported cognitive behavioral treatment program designed for patients diagnosed with a specific phobia according to DSM IV criteria The program describes treatment strategies for a variety of specific phobias including animal phobias natural environment phobias situational phobias blood injection or injury phobias and other phobias The Therapist Guide presents information on the development and efficacy of cognitive behavioral treatment for specific phobias and guides the clinician through a session by session treatment program Detailed therapeutic interventions are described to help clients manage fear and anxiety including objective self monitoring techniques systematic desensitization and cognitive restructuring Interoceptive and in vivo exposure exercises are presented to help clients overcome phobic avoidance

Handbook of Exposure Therapies David C.S. Richard, Dean Lauterbach, 2011-10-11 Exposure Therapy refers to any clinical intervention in which a client directly confronts a source of fear Since high levels of anxiety can not be maintained indefinitely repeated exposure leads to decreased anxiety This type of treatment is effective with phobias post traumatic stress disorder obsessive compulsive disorders panic generalized anxiety and several other disorders It s also been found to be effective in helping to treat substance abuse Although exposure based treatments have been extensively researched and reported in the literature there is no single comprehensive treatment of exposure therapies Writings tend to be limited to larger pieces on treating specific disorders or types of patients A comprehensive book on the use of these treatments across patient disorders will be of great use to practitioners The book is divided into three sections Foundation Applications and Issues Foundation chapters considers theoretical and assessment issues Applications chapters will discuss research literature on each disorder having been proven to be successfully treated with exposure therapy Issue chapters will discuss liability issues false memory syndrome and the use of computers and virtual reality in exposure therapy Covers the broad range of exposure therapies in one comprehensive source Provides an integrated look at exposure therapy across a variety of disorders Each such chapter will include a case study Blends literature review and practice guidelines **Handbook of Clinical Interviewing With Adults** Michel Hersen, Jay C. Thomas, 2007-08-08 Clinical interviewing with adults is both an art and a science This handbook will appeal to a wide range of clinical researchers therapists interns and graduate students new to the complexities of the clinical interview and diagnostic process The comprehensive range of topics and coverage that includes case illustrations with dialogue and differential diagnosis and co morbidity will be highly attractive features to researchers professional therapists and graduate students The Hersen and Thomas team is highly qualified to succeed in this ambitious set of three projects Carolyn Brodbeck Chapman University The Handbook of Clinical Interviewing with Adults is one of three interrelated handbooks on the topic of interviewing for specific populations It presents a combination of theory and practice plus concern with diagnostic entities for readers who work or one day will work with adults in clinical settings

The volume begins with general issues structured versus unstructured interview strategies mental status examinations selection of treatment targets and referrals writing up the intake interview etc moves to a section on major disorders most relevant to adult clients depression bipolar disorder agoraphobia posttraumatic stress disorder eating disorders alcohol and drug abuse sexual dysfunction etc and concludes with a chapter on special populations and issues neurologically impaired patients older adults behavioral health consultation etc

Mastery of Your Anxiety and Worry Richard E. Zinbarg,1993

Mastery of Your Anxiety and Panic David H. Barlow,Michelle G. Craske,2022 Research on the efficacy of nonpharmacological treatments for the various anxiety disorders has been ongoing for over three decades at our institutions the Center for Anxiety and Related

Disorders at Boston University and the University of California Los Angeles Anxiety Disorders Behavioral Research Program. Developments in the conceptualization of panic attacks and panic disorder PD in the 1980s and 1990s made possible significant improvements in the psychological treatment of PD and the development of panic control treatment PCT a treatment for panic disorder. Since then a substantial body of evidence on the efficacy of this intervention and closely related variants containing very similar components has accumulated and it is stipulated as a first line treatment of choice in clinical practice guidelines from the American Psychiatric Association and the National Institute for Health and Care Excellence NICE which produces guidelines for the National Health Service in the UK aPa 2009 NICE 2019. In 2013 PCT was evaluated as meeting the criteria for an Evidence Based Program by the Division of Quality and Performance Improvement of the Substance Abuse and Mental Health Services Administration SAMHSA of the Public Health Service in the United States. Similarly the Society of Clinical Psychology of the American Psychological Association 1998 rated the evidence as strong in supporting PCT as an evidence based intervention for panic disorder. After the first strong evidence for the efficacy of this approach began to appear e.g. Barlow et al 1989 we recognized the value of a guide outlining the treatment procedures. Hence the *Mastery of Your Anxiety and Panic Workbook* and *Mastery of Your Anxiety and Panic Therapist Guide* were written and have now been revised. Now in its fifth edition the revised client workbook is written in a style suitable for the client's direct use usually under the supervision of a trained professional although it can be used in a self help format particularly for less severe cases.

Mastery of Your Anxiety and Worry (MAW): Therapist Guide Richard E. Zinbarg, Michelle G. Craske, David H. Barlow, 2006-03-23. Generalized Anxiety Disorder occurs in approximately 4% of the population and is characterized by excessive uncontrollable worry about everyday things. The constant worry can be extremely impairing if left untreated even to the point of causing physical symptoms. Written by the developers of an empirically supported and effective cognitive behavioral therapy program for treating GAD, this second edition therapist guide includes all the information and materials necessary to implement a successful treatment protocol. The therapeutic technique described in this book is research based with a proven success rate when used in both individual and group formats as well as with clients currently taking medication. Designed to be used in conjunction with its corresponding workbook, this therapist guide outlines a 10 session program comprised of four primary treatment modules including cognitive restructuring, progressive muscle relaxation, worry exposures, and in vivo exposure exercises. New features to this edition include expanded chapters that provide detailed instructions for conducting each session, session outlines, and recommended homework assignments. This user friendly guide is a dependable resource that no clinician can do without. *Treatments That Work™* represents the gold standard of behavioral healthcare interventions. All programs have been rigorously tested in clinical trials and are backed by years of research. A prestigious scientific advisory board led by series Editor In Chief David H. Barlow reviews and evaluates each intervention to ensure that it meets the highest standard of evidence so you can be confident that you are
