What are you getting if you order this book Here s what you get the latest Addition Cobb 1987 NCTM 2000 The idea is that the fact families allow children to think about part whole relationships while also helping them realize that subtraction and addition are opposites of one another Cobb 1987 Sun Zhou Peverly 2005 [https://www.researchgate.net/publication/242266096\\_Helping\\_a\\_Young\\_Child\\_Connect\\_Fact\\_Family\\_Addition\\_and\\_Subtraction\\_using\\_Tools](https://www.researchgate.net/publication/242266096_Helping_a_Young_Child_Connect_Fact_Family_Addition_and_Subtraction_using_Tools) Another great thing about fact families in math the answer is always there One of the three values is the answer That s the thing that makes it possible for kids in kindergarten 1st grade or 2nd grade to identify the relationships so easily What this book is NOT This book is not

designed with a particular influence like Singapore Math Kumon Everyday Math or that kind of thing It s strictly practice problems conveniently organized into workbook format So YOU don t have to worry that this workbook is going to recommend a different learning style than what your child is being taught Practice practice practice and your child will be on their way
