## **Modern Music And After:**

*Modern Music and After* Paul Griffiths, 2010 Over the course of three decades *Modern Music and After* has earned its place as the standard work on the processes of musical renewal that began in 1945. It is essential reading for the enquiring listener and is used widely in university and conservatory courses. *Modern Music and After* Paul Griffiths, 1995 [Music after the Fall](#) Tim Rutherford-Johnson, 2017-02-01 the best extant map of our sonic shadowlands and it has changed how I listen. Alex Ross *The New Yorker* an essential survey of contemporary music. New York Times sharp provocative and always on the money. The listening list alone promises months of fresh discovery. the main text a fresh new way of navigating the world of sound. *The Wire* 2017 Music Book of the Year Alex Ross *The New Yorker* *Music after the Fall* is the first book to survey contemporary Western art music within the transformed political cultural and technological environment of the post Cold War era. In this book Tim Rutherford Johnson considers musical composition against this changed backdrop placing it in the context of globalization digitization and new media. Drawing connections with the other arts in particular visual art and architecture he expands the definition of Western art music to include forms of composition experimental music sound art and crossover work from across the spectrum inside and beyond the concert hall. Each chapter is a critical consideration of a wide range of composers performers works and institutions and develops a broad and rich picture of the new music ecosystem from North American string quartets to Lebanese improvisers from electroacoustic music studios in South America to ruined pianos in the Australian outback. Rutherford Johnson puts forth a new approach to the study of contemporary music that relies less on taxonomies of style and technique than on the comparison of different responses to common themes of permission fluidity excess and loss. **Modern Music and After** Paul Griffiths, 1994-06-01 [Modern Music and After](#) Paul Griffiths, 2011-02-16 Over three decades Paul Griffiths's survey has remained the definitive study of music since the Second World War. This fully revised and updated edition re establishes *Modern Music and After* as the preeminent introduction to the music of our time. The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language. The initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding. This constant expansion of musical thinking since 1945 has left us with no singular history of music. Griffiths's study accordingly follows several different paths showing how and why they converge and diverge. This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition but also the recent explosion of scholarly interest in the latter half of the twentieth century. In particular the book has been expanded to incorporate the

variety of responses to the modernist impasse experienced by composers of the 1980s and 1990s Griffiths then moves the book into the twenty first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino For its breadth wealth of detail and characteristic wit and clarity the third edition of **Modern Music and After** is required reading for the student and the enquiring listener **Modern Music and After** Paul Griffiths,2006 This text investigates Western music since the World War II The disruptions of the war were reflected in the music of the time Shostakovich s unsettling symphonies Stockhausen s development of electronic music Xenakis s view of music as sounding mathematics and Berio s consideration of it as language The initiatives of these composers and their contemporaries opened prospects that have continued to unfold **Modern Music** ,1930 **Modern Music** ,1944 *Modern Music and Musicians* Ignace Jan Paderewski,1918 A History of Modern Music Paul Collaer,1961 A translation of the second edition of the French text published in Belgium 1955 This book presents the evolution of musical thought from the origins of twelve tone music to the American and British composers of today French music since Devussy the work fo Eric Satie and les Six German music after Richard Strauss and music in Soviet Russia are all discussed Publisher s note **Modern Music and Musicians: Encyclopedia: v. 1. "*Music after Hitler, 1945?955*" Toby Thacker,2017-07-05 The political control of music in the Third Reich has been analysed from several perspectives and with ever increasing sophistication However music in Germany after 1945 has not received anything like the same treatment Rather there is an assumption that two separate musical cultures emerged in East and West alongside the division of Germany into two states with differing economic and political systems There is a widely accepted view of music in West Germany as free and in the East subject to party control Toby Thacker challenges these assumptions asking how and why music was controlled in Germany under Allied Occupation from 1945 1949 and in the early years of semi sovereignty between 1949 and 1955 The re education of Germany after the Hitler years was a unique historical experiment and the place of music within this is explored here for the first time While emphasizing political economic and broader social structures that influenced the production and reception of different musical forms the book is informed by a sense of human agency and explores the role of salient individuals in the reconstruction of music in post war Germany The focus is not restricted to any one kind of music but concentrates on those aspects of music professional and amateur live and recorded which appeared to be the mostly highly charged politically to contemporaries Particular attention is given to denazification and to the introduction of international music Thacker traces the development of a divide between Communist and liberal democratic understandings of the place of music in society The contested celebrations of the Bach Year in 1950 are used to highlight the role of music in the broader cultural confrontation between East and West Thacker examines the ways in which central governments in East and West Germany sought to control and influence music through mechanisms of censorship and positive support The book will therefore be of interest not only     Modern Music and Musicians for Vocalists Louis Charles Elson,1918     Modern Music and Musicians Louis Charles Elson,1912
