Literature as National Institution Vassilis Lambropoulos, 2014-07-14 This book examines how the practices of criticism establish a particular domain of knowledge the truth of literature As a discussion of the ideology and politics of literary knowledge it concentrates on constitutive elements of its production the intertextuality of writing the mediatedness of understanding the formative role of reading expectations the enabling presence of relevant literacy the conditioning horizon of expectations and the economic character of axiology The main argument advanced is that criticism by constructing literature as an ethnic heritage and communal treasure participated in the invention of a national identity necessary for the legitimization of the modern state Case studies have been selected from the highly relevant area of contemporary Greek criticism Microscopic investigations of its dominant sites

mechanisms and discourses reveal that the field emerged in response to concrete political needs and provided the state with a literary tradition as proof of its national composition purity continuity and autonomy The construction and canonization of texts as art works invariably employed as a measure of aesthetic and ultimately moral merit the Greekness of the literary sign The book as a genealogical approach to the neglected national role of literature should be of interest to specialists in literary theory comparative literature Greek studies and cultural studies Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Xouth, The Ape Iakovos Pitsipios, 2025-10-28 Xouth the Ape published in 1848 by Iakovos Pitsipios is a pioneering and satirical Greek novel that deftly blends humour cultural critique and biting social commentary The novel is set in the aftermath of the Greek War of Independence The story follows a young Greek man desperate to present himself as a European aristocrat who finds himself entangled with Xouth an ape who is in fact a German travel writer transformed as punishment for his vanity and prejudices Through the interactions between the protagonist and the ape valet Pitsipios skewers the pretensions of Greece's newly minted elites exposing the often comical efforts to mimic Western manners and ideals The novel lampoons the wave of Western travel writers who discovered Greece poking fun at their colonial attitudes and superficial observations The figure of Xouth serves as both a mirror and a caricature reflecting the absurdities of identity authenticity and cultural imitation in a society striving to define itself between East and West Translated in English for the first time with an expansive Introduction by Neo G Christodoulides the novel explores themes of national identity the pitfalls of mimicry and the complexities of cultural exchange Rich with allusions to both Greek and European literary traditions Pitsipios draws sharp parallels between his characters' quests for legitimacy and the real historical debates around language class and belonging in 19th century Greece The novel's polyglossic style a blend of archaic official and colloquial Greek further emphasises the layered and fractured nature of Greek identity at the time Despite its initial obscurity the novel's relevance endures its sharp satire and insightful social analysis make it not just a humorous adventure but a revealing document of post revolutionary Greece and its ongoing negotiations with modernity Western influence and self perception Xouth the Ape is a hidden gem that deserves renewed attention from readers scholars and anyone fascinated by the crossroads of cultures
