Vogel, 1968      **Sourcebook of Family Theories and Methods** Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19

Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production      **Psychosocial Aspects of Physical Illness** Z. J. Lipowski, 1972-10-11      Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 1999-01-31

A host of scholars in sociology communications human development economics history and psychology join Sussman Union Institute Cincinnati OH Steinmetz Indiana U and Peterson Arizona State U to complete this volume on marriage and the family Articles reflect a broad range of interests discussing such topics as demography ethnic variation in the family divorce adolescence in contemporary families work religion law communication abuse and violence and sexuality The book also includes a variety of articles on theories and methods of family research and marital and family therapy Annotation copyrighted by Book News Inc Portland OR      What is The Family of Law? Alan Brown, 2019-02-07

This book argues that the legal understanding of family in the UK continues to be underpinned by the idealised image of the nuclear family premised upon the traditional gendered roles of father as breadwinner and mother as homemaker This examination of the law's model of the family has been prompted by the substantial reforms that have taken place in family law in recent decades and the significant evolution in social attitudes and familial practices that has occurred in parallel Throughout the book the influence of the nuclear family is noted in several different contexts various specific legal definitions of family the legal regulation of adult conjugal relationships the attribution of legal parenthood and the construction of the role of the parent within the law Ultimately this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model there has not as yet been any

fundamental alteration of the underpinning concept of the nuclear family itself This book concludes by considering the possibilities offered beyond the nuclear family exploring the reconceptualising of the legal understanding of family around alternative and potentially radical models of family      *Family Structure and Interaction* Gary R. Lee, 1977      **Family Mediation** Howard H. Irving, Michael Benjamin, 1995-07-19 Preface by Hugh McIsaac Family mediation has quickly become a significant means of legal dispute resolution recognized in most North American jurisdictions as a relief to already overburdened judicial systems Using an innovative practical approach the authors of Family Mediation incorporate the pivotal principles of family therapy into this new context the judicial realm of family mediation The practice model therapeutic family mediation thoroughly treats history specific issues and practice in an ecosystemic approach and responds to feminist critique of mediation In addition the authors offer important perspectives on mediating with multicultural populations and the role of the mediator in child custody disputes and child protection cases Through examination of family mediation research as well as helpful case history vignettes the authors of this volume take action to fill significant gaps between family therapy and mediation Family Mediation provides a new take on family mediation that will benefit not only professionals and researchers in family studies social work clinical psychology and sociology but also professional and volunteer mediators conciliation court personnel and family law specialists Family Mediation is an excellent blend of scholarship and practice and it is the best of the books I have read on family mediation First it is clear and well written Second it provides an in depth current review of the divorce literature The literature on divorce is large uneven and difficult to interpret The authors have done a service to the profession by skillfully reviewing and integrating this literature Stephen J Bahr Brigham Young University This book is one of the most comprehensive and well researched texts on mediation to date The authors have compiled an immense array of information regarding the history of family mediation the practice and knowledge base a review of literature regarding divorce the principles of mediation gender and cultural issues elements in a child custody dispute sharing parenting cultural issues and the use of mediation in dependency and they include an excellent summary of research conducted Of particular value is the enormous scope of the review of literature and the work of others not only in Canada but also the United States Australia and Great Britain underscoring the international nature of this transformation What Howard H Irving and Michael Benjamin have done is chart a major shift in the handling of conflict and they have done it very well Family and Conciliation Courts Review Howard H Irving and Michael Benjamin have surveyed and summarized an immense amount of material within the covers of this volume presenting it in a clear readable style It is one of the rare texts on mediation that does justice to the complexity of families generally and families in North America particularly to their diversity of culture to the scope of feminist thought and gender differences and to the ranges of social class Their attention to divergent forms of mediation and differences in practice across jurisdictions is broadly sighted An excellent choice for a text in mediation Mary A Duryee Family Court Services Alameda County Oakland CA Howard H Irving

and Michael Benjamin grapple with what is the most difficult event that confronts almost half of all modern families divorce. Historically the developmental issues and problems surrounding divorce have been solved in the courts. But modern day courts are overwhelmed by an avalanche of divorce cases more than a million a year and are unable to meet the needs of separating parties. Family Mediation offers a fundamentally different approach from the conventional legal system. The empirical research and clinical experience Irving and Benjamin bring to bear on this subject have resulted in the seminal work in this area. This delightful and thoughtful book is a must for the modern mediation practitioner who works with families and children. Duncan Lindsey, Professor UCLA and Editor in Chief Children and Youth Services Review. This book is unique in providing a complete overview of relevant subject areas for family mediation under one cover. Its writing is timely because it dispels some of the myths in the rapidly expanding field of family mediation. Family Mediation is a comprehensive text that follows the development of family mediation through the present and concludes with the predictors of future directions. It is perhaps the most thorough critical review of the literature pertaining to family mediation and develops an inclusive practical model of practice for practitioners. The book is readable, responsible and of interest to family mediators and the family law lawyers who work closely with them. It may become a must as a background for the novice family mediator about to embark on a course of training.
