Modern Journalism John Beveridge MacKie,2015-07-22 Excerpt from *Modern Journalism A Handbook of Instruction and Counsel for the Young Journalist* In sending this little work to press the Author makes no pretension to journalistic pedagogy He does not claim to supply a complete course of instruction in the profession of journalism The poet is born not made but the journalist can only hope to attain to eminence in his profession by diligence in its practice and by constant practical endeavour to excel At starting he must be well educated and he must ever keep himself at school being always quick to note and willing to learn About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Modern Journalism, a Guide for Beginners** Anonymous,2015-08-12

Modern Journalism Carl G. Miller,1962 Modern American Journalism Sidney Kobre,2012-05-01 **News with a View** Burton St. John III,Kirsten A. Johnson,2014-01-10 Modern mainstream journalism faces a very real disturbance of its foundational premise that credible news is gathered and articulated from an objective stance This volume offers new examinations of how the traditional notion of objectivity is changing as professional journalists grapple with a rapidly evolving news terrain one that has become increasingly crowded by those with no journalistic credentials Examining historical antecedents current dilemmas international aspects and theoretical considerations contributors make the case that

the journalist's impulse to hold onto objectivity and to ignore the increasing subjectivities to which citizens are attuned actually contributes to the news media's disconnect from today's news consumer. Revealing how traditional journalism needs to incorporate post-objective stances, these essays stimulate further thought and conversation about news with a view in both theory and practice. *Writing and Reporting in Modern Journalism*, 2020 **Modern Journalism**, 2018-02-03 Excerpt from *Modern Journalism: A Guide for Beginners*. But the young man with the given qualifications who is willing to place his art first and to devote himself loyally to it may attain sufficient honour and reward to satisfy a modest ambition. I have read this excellent little book *Modern Journalism* with the greatest interest and though I have been a journalist for the greater part of my life I have found in it much that has instructed me and much that has impressed me. If I were asked to add a personal note to these few words of introduction I should say to the young journalist take as far as you possibly can a personal interest in your work be proud of the profession you have adopted and zealous for its honour never use a long word when a short one will do or a foreign word when an English one is at your service eschew the parenthesis and cleave unto the full step And however much you may be tempted in the beginning to imitate the style of this writer or of that never forget that your greatest chance of success as a journalist lies in your having a style of your own. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com. This book is a reproduction of an important historical work. Foerstel,2001-06-30 Students can apply critical thinking skills to examine the current status of each controversy and make predictions on possible future outcomes **Media Reporting** James Stovall,2012-12-08 Central to the act of journalism is the act of reporting Journalism cannot exist without reporting without reporters who are willing to dig up information in all sorts of unlikely places and from all sorts of unlikely people Nothing matters in journalism without reporting That s why this book was written Students who have an interest in journalism should must understand that good reporting is the core Intelligent insightful efficient gathering of information Information that is original relevant important and useful Journalism doesn t exist without it Reporting is hard work It is frustrating and difficult Reporters are constantly called upon to use their wit and imagination to think of where information is and who has it and then to persuade those who have it to give it up Reporters do not have subpoena power They cannot compel sources to part with their information So a reporter must sell the source on the importance of what the reporter is doing None of that is easy But reporting hard as it is can also be fun and exciting It can take a young person to places he or she would never see otherwise It can put the reporter in touch with the most interesting people on earth It gives the reporter a front row seat on the human condition It s not always a pretty picture but it is almost inevitably interesting and enlightening Media Reporting Principles and Practices of Journalism in a Multimedia World will give you some of the basic concepts of what a reporter does and how a reporter goes about the business of journalism This book is part of the Tennessee Journalism Series **Catalog of Copyright Entries.
