are a social justice issue give voice to language users in general and to language students in particular and engage into powerful erudite reflexive and critical insights This book portrays language and culture education as a passionate intelligent and committed undertaking In sum it is essential and stimulating reading for those Language and Culture educators teaching in Modern Language Departments from universities all over the world who dare Dr Manuela Guilherme Researcher Center for Social Studies Universidade de Coimbra This accessible book aims to challenge and stimulate all those engaged with teaching modern languages in higher education It is not a how to book rather it engages with the complex often paradoxical position of modern languages today and offers arguments for and illustrations of the ways in which teachers of modern languages can position themselves critically in that rapidly changing context It works with the concepts of languaging and being intercultural which arise from a rigorous examination of research findings a challenging critique of current models of work within the discipline and a reflection on existing teaching practices Beginning with an examination of the crisis in modern languages in the U K and North America the authors draw on data and descriptions of learning experiences in the field and position themselves critically within the debates Key problems for teachers and learners are identified and elaborated through examples of critical incidents which point to generic as well as specific issues and solutions in teaching languages in higher education The Teaching Learning in the Humanities series edited by Ellie Chambers and Jan Parker is for beginning and experienced lecturers It deals with all aspects of teaching individual arts and humanities subjects in higher education Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline specific practices *Foreign Languages for All* ,1996 Modern Languages Katrin Kohl,2021-02-01 It might seem as if globalization is making the whole world speak English But spend time in any major city and you are likely to encounter a cornucopia of languages Even monolingual people have different ways of speaking to their bosses or teachers their intimate friends or their pets And if you live in India or Nigeria you might use five different languages in the course of a normal day Bilingual Oxford professor Katrin Kohl makes a passionate case for why we must embrace languages in all their diversity When you study a language you gradually open a unique doorway into the world immerse yourself in a different way of seeing and discover new ways of communicating with people from different cultures on their terms Languages open our minds to the diversity of human life in its complex relationships with nature culture and technology They enable us to understand why cultural diversity matters and why we should care about preserving it as much as we care about preserving the diversity of our biological world *New Perspectives on Teaching and Learning Modern Languages* Simon Green,2000-01-01 This exciting new publication featuring chapters from some of the foremost practitioners in the field of modern languages today closely examines research based analysis structural contexts and classroom practice in teaching and learning After analysing the current situation each author proposes radical solutions to current problems and the whole book provides much needed fresh thinking on methodology and pedagogy **Modern Language Quarterly** ,1901 **Modern**
