## Modern Poetics:

*Modern Poetry after Modernism* James Longenbach, 1997-11-27 In this book James Longenbach develops a fresh approach to major American poetry after modernism Rethinking the influential breakthrough narrative the oft told story of postmodern poets throwing off their modernist shackles in the 1950s Longenbach offers a more nuanced perspective Reading a diverse range of poets John Ashbery Elizabeth Bishop Amy Clampitt Jorie Graham Richard Howard Randall Jarrell Robert Lowell Robert Pinsky and Richard Wilbur Longenbach reveals that American poets since mid century have not so much disowned their modernist past as extended elements of modernism that other readers have suppressed or neglected to see In the process Longenbach allows readers to experience the wide variety of poetries written in our time without asking us to choose between them

**Ghostlier Demarcations** Michael Davidson, 2022-05-13 Why do modern poets quote from dictionaries in their poems How has the tape recorder changed the poet's voice What has shopping to do with Gertrude Stein's aesthetics These and other questions form the core of Ghostlier Demarcations a study of modern poetry as a material medium One of today's most respected critics of twentieth century poetry and poetics Michael Davidson argues that literary materiality has been dominated by an ideology of modernism based on the ideal of the autonomous work of art which has hindered our ability to read poetry as a socially critical medium By focusing on writing as a palimpsest involving numerous layers of materiality from the holograph manuscript to the printed book Davidson exposes modern poetry's engagement with larger historical forces The palimpsest that results is less a poem than an arrested stage of writing in whose layers can be discerned ghostly traces of other texts This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

**Modern Visual Poetry** Willard Bohn, 2001 Far from frivolous playthings modern visual poems represent serious experiments Together with other members of the avant grade the visual poets sought to restructure the basic vision of reality that they inherited from their predecessors This statement describes contemporary visual poets as well who like their earlier colleagues strive to say things that are more meaningful in ways that are more meaningful **BOOK JACKET** **The Poetics of the Everyday** Siobhan Phillips, 2010 Wallace Stevens once described the malady of the quotidian lamenting the dull weight of everyday regimen Yet he would later hail that which is always beginning over and over recognizing if not celebrating the possibility of fresh invention Focusing on the poems of Wallace Stevens Robert Frost Elizabeth Bishop and James Merrill Siobhan Phillips positions everyday time as a vital category in modernist aesthetics American literature and poetic theory She eloquently reveals how through particular but related means each of these poets converts the necessity of quotidian experience into an aesthetic and experiential opportunity In Stevens Phillips analyzes the implications of cyclic dualism In Frost she explains the theoretical

depth of a habitual middle way In Bishop s work she identifies the attempt to turn recurrent mornings into a ceremony rather than a sentence and in Merrill she shows how cosmic theories rely on daily habits Phillips ultimately demonstrates that a poetics of everyday time contributes not only to a richer understanding of these four writers but also to descriptions of their era estimations of their genre and ongoing reconfigurations of the issues that literature reflects and illuminates Missing Measures Timothy Steele,Clara Gyorgyey,1990-01-01 Examines the departure from meter and rhyme in modern poetry and the increased use of free verse *Left of Poetry* Sarah Ehlers,2019-04-11 In this incisive study Sarah Ehlers returns to the Depression era United States in order to unsettle longstanding ideas about poetry and emerging approaches to poetics By bringing to light a range of archival materials and theories about poetry that emerged on the 1930s left Ehlers reimagines the historical formation of modern poetics Offering new and challenging readings of prominent figures such as Langston Hughes Muriel Rukeyser and Jacques Roumain and uncovering the contributions of lesser known writers such as Genevieve Taggard and Martha Millet Ehlers illuminates an aesthetically and geographically diverse matrix of schools and movements Resisting the dismissal of thirties left writing as mere propaganda the book reveals how communist affiliated poets experimented with poetic modes such as lyric and documentary and genres including songs ballads and nursery rhymes in ways that challenged existing frameworks for understanding the relationships among poetic form political commitment and historical transformation As Ehlers shows Depression left movements and their international connections are crucial for understanding both the history of modern poetry and the role of poetic thought in conceptualizing historical change

**Modern Poets on Modern Poetry** James Scully,1966 Includes essays by W B Yeats Ezra Pound Robert Frost T S Eliot William Carlos Williams Gerard Manley Hopkins John Crowe Ransom Marianne Moore E E Cummings Wallace Stevens Hart Crane W H Auden Dylan Thomas David Jones Robert Lowell and Charles Olson

**Modern Poetics** James Scully,1965 Great modern poets from Yeats to Lowell discuss their craft At the Turn of a Civilization Kathleen Henderson Staudt,1994 At the turn of a civilization examines Jones in the context of modernism comparing his vision of history as an order of signs to T S Eliot s nostalgia for tradition and Ezra Pound s call for a new paideuma Jones believed that in the act of making art that embodies and re calls the past the poet affirms even creates an abiding continuity with what is deepest and most valuable in human experience even in a world overrun by industrialism and imperialism This sacramentalist view of poetry informs Jones s use of myth and history his use of masculine and feminine imagery and his anti imperialist vision

**Victorian and Modern Poetics** Carol T. Christ,1984 Expressivity in Modern Poetry Donald Wellman,2019-02-26 Expressivity in Modern Poetry explores three interrelated subjects The first is a general exposition of the radical or deeply realistic aspects of the poetry and visual arts of the modern period The focus is on the works of Ezra Pound as understood through a prism of postmodern thought The second subject is the poetry and poetics of Charles Olson a pivotal figure during the transition from modernism to postmodernism The third subject is contemporary innovative poetry with special attention to transcultural

neobarroco and language centered aspects of composition The grounding for this section is found in the works of William Carlos Williams Aime Cesaire and Jose Lezama Lima A reversal of the relation between the center and periphery decentering the New York to Paris vector is crucial for understanding the Caribbean as a seedbed for both innovative and identity based poetics Wellman's purpose is to amplify the cultural importance of expressivity in a field where critical discussion is often dominated by constructivism and conceptualism Expressivity in Modern Poetry offers a new reading of the relation between twentieth century modernism and contemporary poetic practice *The Oxford Handbook of Modern and Contemporary American Poetry* Cary Nelson, 2012 The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve as touchstones along the tour of the poetic landscape *Contemporary Poetry* Nerys Williams, 2011-04-06 Discussing the work of more than 60 poets from the US UK Ireland Australia New Zealand and the Caribbean from Sujata Bhatt to M Philip NourbeSe and from John Ashbery to Eliot Weinberger Nerys Williams guides students through the key ideas and movements in the study of poetry today With reference to original manifestos and web based experiments as well as the role of information culture in shaping and distributing poetry globally this book engages with the full vitality of the contemporary poetry scene Key Features Wide topic range from performance to politics from lyric expression to ecopoetics and from multilingual poetries to electronic writing enables provocative thematic links to be made Discussion of global Englishes dialects and idiolects aimed at those studying poetry on postcolonial literature and contemporary poetics courses Contemporary relevance relates poetry to reporting on global conflict including the impact of the Iraq War Student resources include a chronology web resources a glossary questions for discussion and a guide to further reading *Roots of Lyric* Andrew Welsh, 2019-01-29 Folk riddles emblems charms and chants are a few of the traditional forms examined by Andrew Welsh to discover the means by which poetic language achieves its powerful effects His book shows how the roots of lyric are embodied in primitive verse forms how they are raised to higher powers in poetry from the Renaissance to the twentieth century and how an awareness of them can illuminate our reading of the poetry of any age Andrew Welsh is Associate Professor of English at Rutgers University Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make

available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 After Translation Ignacio Infante,2013-03 Translation from both a theoretical and practical point of view articulates differing but interconnected modes of circulation in the work of writers originally from different geographical areas of transatlantic encounter such as Europe Latin America North America and the Caribbean After Translation examines from a transnational perspective the various ways in which translation facilitates the circulation of modern poetry and poetics across the Atlantic It rethinks the theoretical paradigm of Anglo American modernism based on the transnational interlingual and transhistorical features of the work of key modern poets writing at both sides of the Atlantic namely the Portuguese Fernando Pessoa the Chilean Vicente Huidobro the Spaniard Federico García Lorca the San Francisco based poets Jack Spicer Robert Duncan and Robin Blaser the Barbadian Kamau Brathwaite and the Brazilian brothers Haroldo and Augusto de Campos Robert Frost Frank Lentricchia,1975 Forces in Modern & Postmodern Poetry Albert Cook,2008 Forces in Modern and Postmodern Poetry examines the works of classic authors in the modern and postmodern literary tradition including Stéphane Mallarmé Wallace Stevens Samuel Beckett Gertrude Stein Charles Olson Paul Celan Ezra Pound William Carlos Williams Louis Zukofsky and John Ashbery all from a comparative perspective The concepts modern and postmodern are not used to provide definitive answers but to raise questions concerning the status of representation issues of the self and the use of imagery and musical invention The wide range of the study is matched by the richly detailed analysis of specific poetic texts from an author noted for the scope and acuity of his attention to modern poetry in all its varied forms Theorists of Modernist Poetry Rebecca Beasley,2007-10-03 Modernist poetry heralded a radical new aesthetic of experimentation pioneering new verse forms and subjects and changing the very notion of what it meant to be a poet This volume examines T S Eliot T E Hulme and Ezra Pound three of the most influential figures of the modernist movement and argues that we cannot dissociate their bold inventive poetic forms from their profoundly engaged theories of social and political reform Tracing the complex theoretical foundations of modernist poetics Rebecca Beasley examines the aesthetic modes and theories that formed a context for modernism the influence of contemporary philosophical movements the modernist critique of democracy the importance of the First World War modernism's programmes for social reform This volume offers invaluable insight into the modernist movement as well as demonstrating the deep influence of the three poets on the shape and values of the discipline of English Literature itself Theorists of Modernist Poetry is relevant not only to students of modernism but to all those with an interest in why we study teach read and evaluate literature the way we do **The Cambridge Companion to Modern American Poetry** Walter Kalaidjian,2015-01-19 The Cambridge Companion to Modern American Poetry offers a critical overview of major and

emerging American poets of the twentieth century     **Onward** Peter Baker, 1996 Onward Contemporary Poetry and Poetics is an anthology of statements on poetics by twenty contemporary North American poets along with selections from their poetry. The poets collected here represent the forefront of engaged experimental poetic practice and their statements vary from the extended essay form to collage assemblages of various prose and poetically charged forms. These explorations of poetics lead to intersections of thought and practice both among themselves and with other recently published poetry anthologies.
