Henry H. Hausner,1995-12-31 Five years ago the worldwide powder metallurgy fraternity gathered in New York City to
attend the first international conference devoted entirely to powder metal lurgy to take place in the United States It was a
tentative venture entered into by the sponsors with no idea as to whether it would fail or succeed The only assurances we
had were that the metal powder producing and consuming industries were rapidly expanding and that powder metallurgy
was truly becoming one of the international sciences The 1960 Conference was successful not only in terms of attendance
and interest but also in terms of knowledge gained The literature had been enriched by the contributions of its participants
to foster and encourage this type of world wide exchange Thus another such conference was held in 1965 expanded in scope
and supplemented by an exhibition of the latest advances in raw materials processing equipment and finished products of
powder metallurgy On behalf of the Conference sponsors the Metal Powder Industries Federa tion the American Powder
Metallurgy Institute and the Metallurgical Society of AIME I thank all those who participated and who helped make the 1965
Interna tional Powder Metallurgy Conference a rewarding experience and memorable event in our industry s history Support
of the National Science Foundation which made it possible for several speakers from abroad to participate in the program is
