Mujeres Populares:

The Women's Movement In Latin America Jane Jaquette, 2018-03-09 For those interested in democratic transition and consolidation social movements and gender politics this volume is the most comprehensive up to date and probing analysis available of how women's groups are helping to reshape Latin America. The contributors document and assess the remarkable wave of women's political participation in Latin America over the past two decades. The first five case studies on Brazil, Argentina, Uruguay, Chile, and Peru examine the origins, evolution, and goals of women's organizations as they worked together to end authoritarian rule and elaborate how women's groups have adapted in the 1990s to the day-to-day realities of democratic politics. In the 1990s the challenge has shifted from mobilizing opposition to the very different task of working with parties and government bureaucracies in order to maintain and implement their agendas. The chapters on Nicaragua and Mexico broaden our understanding of political transitions. Seven case studies vividly illustrate the variety of women's movements in the region ranging from the communal kitchens movements to human rights groups. Each author discusses the strategies and debates of the feminist movements in question and records their political successes and failures. Jaquette's introductory and concluding essays provide a comparative framework highlighting the innovative ways in which Latin

American women are making gender a political issue. **Mujeres latinoamericanas en cifras**, 1995 Las mujeres mexicanas encarnan la tensión y el encuentro entre dos culturas: la indígena y la española con un mestizaje aún en proceso soportando el racismo así como grandes desigualdades económicas, sociales, políticas y culturales. México fue uno de los últimos países de la región en aceptar el derecho al voto femenino. También es el único país latinoamericano que no cuenta con un mecanismo nacional para el desarrollo de la mujer según lo establecido por la ONU. En las 4 últimas décadas los rasgos vitales de las mexicanas han cambiado no obstante apreciablemente. Su perfil demográfico ha variado en el sentido de ser mayoritariamente urbanas y principalmente adultas jóvenes. Uno de los cambios más evidentes ha sido su menor fecundidad que ha pasado de 7 a 3 hijos de promedio. También ha crecido en este tiempo en número de mujeres que participan en el mercado laboral. Según la encuesta nacional de empleo de 1991, cerca de un tercio de la población activa está compuesto por mujeres. También han mejorado las condiciones de salud aunque persistan deficiencias apreciables. La incorporación de las mexicanas a posiciones de poder ha sido particularmente lenta y escasa en comparación con el resto de América Latina. El 9.2% en la Cámara de Diputados solo 3 mujeres han ocupado cartera ministerial y un 2.8% ostentan presidencias municipales.

Queering Women's and Gender Studies Begoña Crespo, Isabel Moskowich, 2016-12-14 This volume brings together approaches to and perspectives on English, Spanish, and Galician language literature and culture from the fields of women's gender and queer studies. As its title reflects, the book adopts an inclusive attitude to the so-called others present in these fields. Since queer theory first appeared in academia, its influence has been notorious within both women's and genders. As such, it is vital to queer academia so that it re-conceptualises its foundations; indeed, the contributions here serve to alter the

reader's consciousness of the terms woman and gender. The first chapters concern the field of discourse analysis. Two discuss the written work of female scientists in the Late Modern Era and their role in society. Another deals with women's political discourse in South America. In the following section on literature, the contributors question the current heteronormative and androcentric ways of reading texts. The works on culture study contemporary genres such as video games, video clips and pieces of news and take readers away from Europe. The Epilogue draws on the book's intersubjective spirit to propose a dialogue among multiple disciplines and the people who practise them. As such, the volume reflects the eclectic nature of queer women's and gender studies and their world-wide acceptance by the scholarly community.

Relaciones de solidaridad y estrategia de reproducción social en la familia popular del Chile tradicional (1750-1863) Igor Goicovic Donoso, 2006. En este libro, el autor se propuso como objetivo fundamental estudiar los procesos de reproducción social de la familia popular chilena en el período 1750-1860 a partir de las relaciones de solidaridad y retribución que se desarrollan en su interior y en el marco de una estructura cultural tradicional.

El feminismo mexicano ante el movimiento urbano popular Alma Rosa Sánchez Olvera, 2002-01-01. *Maternidades. Desafíos actuales de género, familia y fertilidad*

VV.AA., Martina Yopo Díaz, 2025-07-01. En un momento histórico crucial, este libro alumbra las interrogantes que surgen de la preocupante disminución de la natalidad a nivel global y especialmente en Chile. Esta compilación en la cual podemos apreciar un amplio conjunto de investigadoras es que exponen sus indagaciones y reflexiones pone en evidencia que lo que se comienza a entender a nivel mundial y en la opinión pública como un problema tiene en nuestro país a un grupo de académicos/as intelectuales activistas pensando y proponiendo sus causas y políticas de solución. Una argumentación plural que permite entender lo materno en Chile por un lado y la disminución de la natalidad por el otro como producto de múltiples factores que van más allá de las explicaciones economicistas. Se trata entonces de un libro que entrega pistas que enriquecen el debate pero sobre todo y quizás ahí radica también su aporte que sigue abriendo preguntas.

Sonia Montecino Aguirre. **Un nuevo silencio feminista?** Marcela Ríos Tobar, Lorena Godoy, 2003. **Mujeres de cine** Isabel Coixet, 2015. Partiendo de una caja propiedad de un proyeccionista andaluz de principios del siglo XX repleta de trozos de celuloide en los que quedaban reflejadas hechizantes poses de actrices del cine mudo, este libro se pregunta cómo afectar a aquellas imágenes de mujeres de mundo hipersofisticadas a la mujer española de aquellos años tan alejada de esos seductores cónones hollywoodienses.

EDITOR. **Biblioteca de las tradiciones populares españolas**, 1886. **Políticas de género y feminismo en el Chile de la postdictadura 1990-2010** Nicole Forstenzer, 2022-12-01. La autora plantea que durante los primeros veinte años de la postdictadura en Chile existió una redefinición del género por parte del Estado que privilegió una versión despolitizada y técnico-operativa de las desigualdades entre mujeres y hombres.
