Roberts,Carol Thompson,1995 Different sense is also attributed to a given animal symbol by the same people through the course of time There is certainly no easy explanation of why animals like snakes and penguins appear over and over again in the art of many peoples across the African continent while others like rhinos zebras and giraffes rarely if ever do    **Ain't I an Anthropologist** Jennifer L. Freeman Marshall,2023-02-28 Iconic as a novelist and popular cultural figure Zora Neale Hurston remains underappreciated as an anthropologist Is it inevitable that Hurston s literary authority should eclipse her anthropological authority If not what socio cultural and institutional values and processes shape the different ways we read her work Jennifer L Freeman Marshall considers the polar receptions to Hurston s two areas of achievement by examining the critical response to her work across both fields Drawing on a wide range of readings Freeman Marshall explores Hurston s popular appeal as iconography her elevation into the literary canon her concurrent marginalization in anthropology despite her significant contributions and her place within constructions of Black feminist literary traditions Perceptive and original Ain t I an Anthropologist is an overdue reassessment of Zora Neale Hurston s place in American cultural and intellectual life    **Words on Cassette** ,1997    **Books in Print** ,1991    **"The" Statutes:**

Silvana Tapia Tapia,2022-04-28 Offering an important addition to existing critiques of governance feminism and carceral expansion based mainly on experiences from the Global North this book critically addresses feminist law reform on violence against women from a decolonial perspective Challenging the consensus that penal expansion is mainly associated with the co option of feminist campaigns to counteract violence against women in the context of neoliberal globalisation this book shows that long standing colonial narratives underlie many of today s dominant legal discourses justifying criminalisation even in countries whose governments have called themselves leftist and post neoliberal Mapping the history of law reform on violence against women in Ecuador the book reveals how the conciliation between feminist campaigns and criminalisation strategies takes place through liberal legality the language of human rights and the discourse of constitutional guarantees across the political spectrum Whilst human rights make violence against women intelligible in mainstream legal terms the book shows that the emergence of a rights based penalty produces a benign formally innocuous criminal law which can be presented as progressive but in practice reproduces colonial and postcolonial paradigms that limit and reshape feminist demands The book raises new questions on the complex social and political factors that impact on feminist law reform

projects as it demonstrates how colonial assumptions about gender race class and the family remain embedded in liberal criminal law This theoretically and empirically informed analysis makes an innovative contribution to feminist legal theory post colonial studies and criminal law and will be of interest to activists scholars and policymakers working at the intersections between gender equality law and violence in Latin America and beyond Illustration ,2007 **Hazell's**
