This exceptional volume will inspire supervisors from all theoretical orientations to do more effective work with their supervisees. Lisa Wallner Samstag, PhD, Professor of Psychology, Long Island University. **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents, 1982 [Thinking History 4-14](#) Dr. Grant Bage, Grant Bage, 2014-01-21. In this book, the author looks at the past, present, and the future of history teaching in primary schools in an attempt to provide a practical framework for teachers. Section one reviews relevant literature with an aim to clarify the dilemmas and advance present thinking and practice in history teaching in primary schools. Section two offers case studies, curriculum materials, and designs, teaching ideas, and methods, teacher development, and curriculum development materials at the same time as tying it in to the existing knowledge base. Section three considers the perennial dilemmas for school history in the 21st century, including how can history survive in an increasingly over-crowded and competitive school curriculum. How can history be harnessed to improvements in literacy and numeracy? What should the primary history curriculum contain? How can IT secure easier access to historical information and evidence? *Curriculum Planning* Kenneth T. Henson, 2015-01-09. The fifth edition of this critically acclaimed approach to curriculum planning continues to receive accolades for its balanced presentation, pertinent case studies, and advice from practicing educators. It skillfully interweaves the themes of multicultural education, constructivism, and education reform. The author documents the latest trends, such as e-learning, blended learning, and flipped learning, the controversial Common Core State Standards, and the impact of technology in our schools, including the BYOD (bring your own device) movement, digital citizenship, and technological literacy. This well-researched text spotlights ways to involve parents, students, and teachers in the curriculum planning process and engages the reader in critical thinking and analysis about curriculum planning and education reform.
