**Fatal Fictions** Alison L. LaCroix, Richard H. McAdams, Martha Craven Nussbaum, 2017 Writers of fiction have always confronted topics of crime and punishment This age old fascination with crime on the part of both authors and readers is not surprising given that criminal justice touches on so many political and psychological themes essential to literature and comes equipped with a trial process that contains its own dramatic structure This volume explores this profound and enduring literary engagement with crime investigation and criminal justice The collected essays explore three themes that connect the world of law with that of fiction First defining and punishing crime is one of the fundamental purposes of government along with the protection of victims by the prevention of crime And yet criminal punishment remains one of the most abused and terrifying forms of political power Second crime is intensely psychological and therefore an important subject by which a writer can develop and explore character A third connection between criminal justice and fiction involves the inherently dramatic nature of the legal system itself particularly the trial Moreover the ongoing public conversation about crime and punishment suggests that the time is ripe for collaboration between law and literature in this troubled domain The essays in this collection span a wide array of genres including tragic drama science fiction lyric poetry

autobiography and mystery novels. The works discussed include works as old as fifth century BCE Greek tragedy and as recent as contemporary novels, memoirs and mystery novels. The cumulative result is arresting: there are killer wives and crimes against trees, a government bureaucrat who sends political adversaries to their death for treason before falling to the same fate himself, a convicted murderer who doesn't die when hanged, a psychopathological collector whose quite sane kidnapping victim nevertheless also collects Justice Thomas reading and misreading of Bigger Thomas, a man who forgives his son's murderer and one who cannot forgive his wife's non-existent adultery, fictional detectives who draw on historical analysis to solve murders. These essays begin a conversation and they illustrate the great depth and power of crime in literature. *The Routledge Encyclopedia of Jewish Writers of the Twentieth Century* Sorrel Kerbel, 2004-11-23. Now available in paperback for the first time, *Jewish Writers of the Twentieth Century* is both a comprehensive reference resource and a springboard for further study. This volume examines canonical Jewish writers, less well known authors of Yiddish and Hebrew and emerging Israeli writers, and includes entries on figures as diverse as Marcel Proust, Franz Kafka, Tristan Tzara, Eugene Ionesco, Harold Pinter, Tom Stoppard, Arthur Miller, Saul Bellow, Nadine Gordimer and Woody Allen. It contains introductory essays on Jewish American writing, Holocaust literature and memoirs, Yiddish writing and Anglo-Jewish literature, provides a chronology of twentieth century Jewish writers. Compiled by expert contributors, this book contains over 330 entries on individual authors, each consisting of a biography, a list of selected publications, a scholarly essay on their work and suggestions for further reading. *Mediterranean Crime Fiction* Barbara Pezzotti, 2023-11-23. By exploring the transcultural nature of Mediterranean crime fiction, Barbara Pezzotti advocates for a regional reading of the genre. **Gumshoes** Mitzi M. Brunsdale, 2006-04-30. The enormous explosion of crime fiction over the last decade means that more people are looking for a good mystery than ever before. This dictionary of fictional detectives helps readers learn about the series in which their favorite detectives are featured. Included are alphabetically arranged entries on roughly 150 fictional detectives which provide information about the works in which the detective appears, the locales in which the detective operates, the detective's investigative methods and other important information. **Spies and Holy Wars** Reeva Spector Simon, 2010-11-15. Illuminating a powerful intersection between popular culture and global politics, *Spies and Holy Wars* draws on a sampling of more than eight hundred British and American thrillers that are propelled by the theme of jihad, an Islamic holy war or crusade against the West. Published over the past century, the books in this expansive study encompass spy novels and crime fiction, illustrating new connections between these genres and Western imperialism. Demonstrating the social implications of the popularity of such books, Reeva Spector Simon covers how

the Middle Eastern villain evolved from being the malleable victim before World War II to the international techno savvy figure in today's crime novels. She explores the impact of James Bond pulp fiction and comic books and also analyzes the ways in which world events shaped the genre particularly in recent years. Worldwide terrorism and economic domination prevail as the most common sources of narrative tension in these works while military tech novels restored the prestige of the American hero in the wake of post Vietnam skepticism. Moving beyond stereotypes Simon examines the relationships between publishing trends political trends and popular culture at large giving voice to the previously unexamined truths that emerge from these provocative page turners. *Read On...Crime Fiction* Barry Trott, 2008.
