The family home is supposed to be a place where family members find a safe haven from the stress of outside life A place where they feel protected and loved Yet for many this is simply not the case The stories in this book are extracts from the book series Murder In The Family The true stories in this short book demonstrate that the family environment can be a very dangerous place indeed Not just for children suffering from child abuse but also for mothers fathers wives and husbands In the United States one of the most treacherous places for a woman is in her own home Women may be afraid of strangers but it s a husband a lover a boyfriend or someone they know who is most likely to hurt them and they are at the highest risk of suffering violence or murder when they are divorcing or separating from a partner Men too can suffer abuse from their wife or partner but the difference in physical size and strength puts a woman at greater risk than a man For children the greatest danger is not an unknown stranger but their immediate families Is your family safe
