*Diasporic Tastescapes* Paula Torreiro Pazo,2016 Diasporic Tastescapes seeks to explore the culinary metaphors present in a selection of Asian American narratives written by a variety of contemporary authors. The intricate web of culinary motifs featured in these texts offers a fertile ground for the study of the real and imaginary histories of the Asian American community an ethnic minority that has been persistently racialized through its eating habits. Thus this book examines those literary contexts in which the presence of food images becomes especially meaningful as an indicator of the nostalgia of the immigrant the sense of community of the diasporic family the clash between generations and the shocks of arrival and return. The reading of Asian American edible metaphors from these perspectives will prove particularly revealing in relation to the notions of home identity and belonging all of them mainstays of the diasporic consciousness Series

**The Trouble with Principle** Stanley Fish,2001-03-02 Stanley Fish is an equal opportunity antagonist A theorist who has taken on theorists an academician who has riled the academy a legal scholar and political

pundit who has ruffled feathers left and right Fish here turns with customary gusto to the trouble with principle Specifically Fish has a quarrel with neutral principles The trouble They operate by sacrificing everything people care about to their own purity And they are deployed with equal highmindedness and equally absurd results by liberals and conservatives alike In this bracing book Fish argues that there is no realm of higher order impartiality no neutral or fair territory on which to stake a claim and that those who invoke one are always making a rhetorical and political gesture In the end it is history and context the very substance against which a purportedly abstract principle defines itself that determines a principle's content and power In the course of making this argument Fish takes up questions about academic freedom and hate speech affirmative action and multiculturalism the boundaries between church and state and much more Sparing no one he shows how our notions of intellectual and religious liberty cherished by those at both ends of the political spectrum are artifacts of the very partisan politics they supposedly transcend The Trouble with Principle offers a provocative challenge to the debates of our day that no intellectually honest citizen can afford to ignore Teaching Social Foundations of Education Dan W.

Butin,2014-04-08 Examines the multiple layers and issues involved in constructing meaningful learning environments within the social foundations of education classrooms Provides readers with the language tools and insights necessary to foster a more productive engagement **Multiculturalism** C. **(Trans)formations of Cultural Identity in the English-speaking World** Jochen Achilles,Carmen Birkle,1998 **Soldiers of Misfortune** Valerie L. Scatamburlo,Valerie Scatamburlo-D'Annibale,1998 In *Soldiers of Misfortune* Valerie Scatamburlo provides the first systematic account of the political correctness phenomenon The author contends that the New Right's campaign against P C must be understood

contextually as part of the conservative movement's broader war of position. She traces the historical genealogy of the contemporary New Right, the network of corporate sponsored funding undergirding their anti PC assault and examines the mainstream media's complicity in propagating anti PC rhetoric. Scatamburlo however challenges the notion that the PC ethos is merely a myth concocted by the New Right and addresses some of the disturbing tendencies in contemporary Left theory and politics. She locates the PC phenomenon theoretically and politically between the linguistic turn in social theory and the rise of identity politics. Claiming that PC is in many ways a form of pseudoradicalism the author argues that progressive intellectuals must move beyond the edicts of PC, the narrowness of identity politics and the excesses of postmodernism.
