Multidimensional Man Lives in a Multidimensional Reality Reynaldo Pareja, 2021-11-18 Is reality what we see at first glance when we observe something This might sound as a senseless question Obviously what we see is real Any object that enters in our field of perception is an objective reality that has weight density it is also inert or alive But are there other levels of reality that are equally valid and real as the level observed at first sight When we make this question we realize that it has meaning because science has taught us is that total reality is not the one we perceive at first glance It suffices to look below its external surface to discover a hidden reality not observable at first glance One question normally opens the door to other questions If this is true one can ask Why is it important for me to become aware of those levels of reality if the immediate one is sufficient for my daily performance How does this question help to clarify why we are designed the way we are The latter question immerses us immediately in the field of meaning the why of things and events This is another level of personal reality that we must investigate if we want to obtain the full picture of what we claim is real This is the intention of this essay to explore the different levels of objective and subjective reality in order to obtain a holistic perspective of ourselves and the world we live in so that we can accept its diverse levels of reality at the same time that we give it the respect it deserves so that all of us can share and live on Earth our one country

Does God Exist? Hans Kung, 2006-09-22 Does God exist Who is God And can we ultimately trust in any reality These questions have been among the greatest subjects of human speculation since history began but not until modern times has the reality of God been so strongly called into doubt In this monumental study written for men and women of all faiths and of none Hans K ng the most renowned and controversial theologian in the world today first traces the rise of modern atheism in the works of such great thinkers as Descartes Pascal Feuerbach Marx Nietzsche and Freud and then demonstrates brilliantly and in terms that make sense to us today why a yes to God remains a more reasonable and responsible belief than its alternative nihilism
