Bhavani Thuraisingham, 2001-06-28 There is now so much data on the Web that managing it with conventional tools is becoming almost impossible. To manage this data, provide interoperability and warehousing between multiple data sources and systems, and extract information from the databases and warehouses, various tools are being developed. In fact,

developments in multimedia database [Distributed Multimedia Database Technologies Supported by MPEG-7 and MPEG-21](#) Harald Kosch, 2003-11-24 A multimedia system needs a mechanism to communicate with its environment, the Internet, clients and applications. MPEG 7 provides a standard metadata format for global communication but lacks the framework to let the various players in a system interact. MPEG 21 closes this gap by establishing an infrastructure for a distributed multimedia frame.

Multimedia Data Mining and Knowledge Discovery Valery A. Petrushin, Latifur Khan, 2007-10-20 This tightly edited collection of papers from leading researchers worldwide provides an overview of the current state of the art in the field of multimedia data mining and knowledge discovery and discusses the variety of hot topics in multimedia data mining research.
