Multiphase Technology 1998:

Papers Presented at 3rd North American Conference on Multiphase Technology, Banff, Canada, 6-7 June 2002

Cem Sarica,Garry A. Gregory,2002 **Non-Newtonian Flow and Applied Rheology** R. P. Chhabra,Swati A.

Patel,2025-03-01 Non Newtonian Flow and Applied Rheology Engineering Applications Third Edition bridges the gap between the theoretical work of the rheologist and the practical needs of those who have to design and operate the systems in which these materials are handled or processed This new edition addresses the rapid advances that are occurring in all aspects of the topics covered in this book such as new measurement techniques or new constitutive equations and more reliable information based on numerical simulations New solved examples are added in each chapter along with a list of problems at the end of the book This is an established and important reference for senior level mechanical engineers chemical and process engineers as well as any engineer or scientist who needs to study or work with these fluids including pharmaceutical engineers mineral processing engineers medical researchers water and civil engineers Extensively revised and expanded with material on new measurement techniques new constitutive equations and information based on numerical simulations Covers both basic rheology and fluid mechanics in non Newtonian fluids making it a truly self contained reference for anyone studying or working with the processing and handling of fluids Provides solved examples to illustrate and or aid understanding of the concepts Written by a world s leading expert in an accessible style

Mechanical and Electro-chemical Interactions under Tribocorrosion Pierre Ponthiaux,Jean-Pierre Celis,2021-08-22

Mechanical and Electro chemical Interactions under Tribocorrosion From Measurements to Modelling for Building a Relevant Monitoring Approach looks at progress in the field of tribocorrosion The work is a result of the efforts of the European tribocorrosion community gathered under the auspices of the European Corrosion Federation EFC within WP18 Tribocorrosion In addition to the handbook Testing Tribocorrosion of Passivating Materials Supporting Research and industrial Innovation published in 2012 this release describes the latest scientific approaches recognized and validated experimentally to address tribocorrosion Sections look at the phenomena of coupling through an understanding of the associated mechanisms and how to identify variables Final sections cover strategies to control and or extend the life of structures in a multi process coupling situation and an in depth description of the current state of the art on modeling approaches of tribocorrosion Reviews the multidisciplinary basics of tribocorrosion Includes insights into novel experimental approaches Provides insights into advanced modeling techniques of tribocorrosion Looks at the implication of results in the development of the monitoring of tribocorrosion

Handbook of Natural Gas Transmission and Processing Saeid Mokhatab, William A. Poe, 2012-07-02 Acquire the tools and techniques that will help meet the world's growing natural gas demand Handbook of Natural Gas Transmission and Processing 2nd Edition gives engineers and managers complete coverage of natural gas transmission and processing in the most rapidly growing sector of the petroleum industry Emphasizing the practical aspects of natural gas production over the theoretical the authors provide a unique discussion of new technologies that are energy efficient and environmentally appealing at the same time This 2nd edition examines ways to select the best processing route for optimal design of gas processing plants and includes three new chapters on dynamics of process controls process modeling and simulation and optimal design of gas processing plants Both Chapter 7 Acid Gas Treating and Chapter 9 Natural Gas Dehydration are heavily revised The objective of this work is to provide plant designers and owners/operators methods to decrease construction costs and total cost of ownership while addressing reliability and availability **Micro Process Engineering**,
