Adventures of Perception Scott MacDonald, 2009 These essays are among Scott MacDonald s best An added bonus among all this new work is one updated vintage essay from 1981 still the very best essay ever written about the uses of pornography All the essays are intellectually personally and viscerally vibrant coupling substantive recent essays with his trademark probing interviews with key filmmakers Each interview is beautifully paired with the essays Scott MacDonald is a monument to thoughtful knowledge of and pleasure in avant garde cinema Linda Williams author of Screening Sex More than any other critic Scott MacDonald truly explores contemporary experimental cinema seeking out new works and new artists reconsidering classics and broadening out our sense of film history from the images on screen to the social political and economic contexts and debates surrounding them And yet if MacDonald surveys a complex landscapes his books never carry the claustrophobia of the archive or academia This criticism answers the call of the open road with
