A Course of Instruction of Theory & Practice of Magic+ Magical Evocation + Magical Words Franz Bardon, 2021-01-19 This volume contains all three books of theoretical and practical use by Franz Bardon Franz Bardon needs no introduction in the field of Magic Evocation occultism practical use of the first three tarot cards use of magical words and letters A Course of Instruction of Theory Practice of Magic Magical Evocation Magical Words Anyone who should believe to find in this work nothing else but a collection of recipes with the aid of which he can easily and without any effort attain to honor and glory riches and power and aim at the annihilation of his enemies might be told from the very inception that he will put aside this book being very disappointed Numerous sects and religions do not understand the expression of magic otherwise than black art witchcraft or conspiracy with evil powers It is therefore not astonishing that many people are frightened by a certain horror whenever the word magic is pronounced Jugglers conjurers and charlatans have discredited this term and considering this circumstance there is no surprise that magic knowledge has always been looked upon with a slight disregard Even in the remotest times the MAGUS has been regarded as one of the highest adepts and it might be of interest to learn that as a matter of fact the word magic is derived from this word The so called sorcerers are by no means initiates but only imitators o the mysteries who counting partly on the ignorance and partly on the credulity of the individuality or a whole nation in order to reach their selfish aims by lies and fraud The true magician will always despise such practices In reality magic is a sacred science it is in the very true sense the sum of all knowledge because it teaches how to know and utilize the sovereign rules There is no difference between magic and mystic or any other conception of the name Wherever authentic initiation is at stake one has to proceed on the same basis according to the same rules irrespective of the name given by this or that creed Considering the universal polarity rules of good and evil active and passive light and shadow each science can serve good as

well as bad purposes Let us take the example of a knife an object that virtually ought to be used for cutting bread only which however can become a dangerous weapon in the hands of a murderer All depends on the character of the individual This principle goes just as well for all the spheres of the occult sciences In my book I have chosen the term of magician for all of my disciples it being a symbol of the deepest initiation and the highest wisdom Many of the readers will know of course that the word tarot does not mean a game of cards serving mantical purposes but a symbolic book of initiation which contains the greatest secrets in a symbolic form The first tablet of this book introduces the magician representing him as the master of the elements and offering the key to the first Arcanum the secret of the ineffable name of Tetragrammaton the quabbalistic Yod He Vau He Here we will therefore find the gate to the magician s initiation The reader will easily realize how significant and how manifold the application of this tablet is Not one of the books published up to date does describe the true sense of the first Tarot card so distinctly as I have done in my book It is let it be noted born from the own practice and destined for the practical use of a lot of other people and all my disciples have found it to be the best and most serviceable system Tetragrammaton literally means the four letter word It was a subterfuge to avoid the sin of uttering the sacred name YHVH Yahveh or Jehova as it later became when the vowels of another word were combined with the consonants of YHVH But I would never dare to say that my book describes or deals with all the magic or mystic problems If anyone should like to write all about this sublime wisdom he ought to fill folio volumes It can however be affirmed positively that this work is indeed the gate to the true initiation the first key to using the universal rules I am not going to deny the fact of fragments being able to be found in many an author s publications but not in a single book will the reader find so exact a description of the first Tarot card I have taken pains to be as plain as possible in the course of the lectures to make the sublime Truth accessible to everybody although it has been a hard task sometimes to find such simple words as are necessary for the understanding of all the readers I must leave it to the judgment of all of you whether or not my efforts have been successful At certain points I have been forced to repeat myself deliberately to emphasize some important sentences and to spare the reader any going back to a particular page There have been many complaints of people interested in the occult sciences that they had never got any chance at all to be initiated by a personal master or leader guru Therefore only people endowed with exceptional faculties a poor preferred minority seemed to be able to gain this sublime knowledge Thus a great many of serious seekers of the truth had to go through piles of books just to catch one pearl of it now and again The one however who is earnestly interested in his progress and does not pursue this sacred wisdom from sheer curiosity or else is yearning to satisfy his own lust will find the right leader to initiate him in this book No incarnate adept however high his rank may be can give the disciple more for his start than the present book does If both the honest trainee and the attentive reader will find in this book all they have been searching for in vain all the years then the book has fulfilled its purpose completely The Author     *The Book Of Ceremonial Magic* Arthur Edward Waite,1961 This book is the second edition of a work which in its first edition was

titled more provocatively *The Book of Black Magic and of Pacts* This book is an attempt to synthesize the procedures of all of the famous Grimoires It draws on the Key of Solomon the Grimorium Verum the apocryphal Fourth Book of Cornelius Agrippa and many others including the famous Black Pullet or Poulet Noir While Waite is careful in his analysis of the various Grimoires he treats the subject matter skeptically The result is an unparalleled look at the details of ceremonial magic

individual development handed down from a primordial tradition and discernable in alchemy Hermetism religious doctrines Tantra Taoism Buddhism Vedanta and the pagan mysteries of the West Reveals the ultimate magical goal of the Absolute Individual the immortal and divine potential that requires rare gifts and extraordinary efforts for its realization This volume the third in the series complements the first two yet they are not strictly sequential and their contents can be read in any order Volume III more than the others bears the personal stamp of Julius Evola In its pages you ll discover that the magic of the UR Group has nothing to do with sorcery or superstition It was their term for an active and affirmative attitude toward individual development handed down from a primordial tradition and discernible in alchemy Hermetism esoteric religious doctrines indigenous practices Tantra Taoism Buddhism Vedanta and the pagan mysteries of the West Its goal was the Absolute Individual the immortal and divine potential that requires rare gifts and extraordinary efforts for its realization However there is incalculable value in this volume even for the less heroic By studying the practices and realizations within the reader will be liberated from conventional dogmas religious political scientific and psychological and see with the clearer eye of realization

**The History of Magic** Éliphas Lévi, 2013-08-22 Born Alphonse Louis Constant French magician Lévi wrote prolifically on the occult sciences His *Histoire de la magie* was first published in 1860 In it Lévi recounts the history of the occult in Western thought encompassing its biblical Zoroastrian and ancient Greek origins various magical practices of the medieval and early modern periods including hermeticism alchemy and necromancy and the role of magic in the French Revolution The last section of the book describes nineteenth century magical practices and includes details of Lévi's own occult experiences Prepared by Arthur Edward Waite 1857-1942 this English translation was first published in 1913 An editor and translator of numerous magical texts Waite includes here a preface comprising an eloquent defense of Lévi and intellectual magic The original French edition is also reissued in the Cambridge Library Collection

**Introduction to Magic, Volume II** Julius Evola, The UR Group, 2019-03-12 Authentic initiatic practices rituals and wisdom collected by the UR Group Shares a rigorous selection of initiatory exercises including instructions for creating the diaphanous body of the *Opus magicum* establishing initiatic consciousness after death and the construction of magical chains the enchainment of initiates Offers studies of mystery traditions throughout history presenting not only the principles themselves but also witnesses to them and their continual validity today The Gruppo di UR was a group of Italian esotericists who collaborated from 1927 to 1929 The purpose of this group was to study and practice ancient rituals gleaned from the mystery traditions of the world both East and West in order to attain a state of superhuman consciousness and power to allow them to act magically on the world They produced a monthly journal containing techniques for spiritual realization accounts of personal experiences translations of ancient texts and original essays on esoteric topics The group included a distinguished line up of occultists neo pagans freemasons Anthroposophists orientalist poets and members of high society The prime movers of the group were Arturo Reghini 1878-1946 a Pythagorean mathematician and reviver of a spiritual Freemasonry

and Julius Evola 1898 1974 then a young philosopher with a precocious mastery of the esoteric doctrines of East and West Many years later in 1971 Evola gathered these essays into three volumes Inner Traditions published Volume I in 2001 under the title Introduction to Magic Rituals and Practical Techniques for the Magus This volume the second in the series complements the first one yet they are not strictly sequential and their contents can be read in any order Volume II shares authentic initiatic wisdom and a rigorous selection of initiatory exercises including instructions for creating the diaphanous body of the Opus magicum establishing initiatic consciousness after death and the construction of magical chains the enchained awareness of initiates It offers studies of mystery traditions throughout history presenting not only the principles themselves but also witnesses to them and their continual validity today This series shows that the Magic of the UR Group meant an active and affirmative attitude toward individual development handed down from a primordial tradition and discernable in alchemy Hermetism esoteric religious doctrines indigenous practices Tantra Taoism Buddhism Vedanta and the pagan mysteries of the West Although some of the practical experiments demanded extraordinary efforts both individual and collective there is incalculable value here even for the less heroic for merely reading these essays leaves a permanent mark on the reader
