The Marquess of Luton feels responsible for her kidnapping if it was a kidnapping and the Berkeley Brigade follows him to the country to solve this distressing puzzle. There are mysteries aplenty: a masked highwayman, a surprisingly rundown estate, an assemblage of suspects and murder. 2nd of the Berkeley Brigade mysteries. Regency Mystery Romance by Joan Smith originally published by Fawcett.

The Dynamics of Murder R. Barri Flowers, 2012-11-26 In recent years there has been a surge in school shootings, workplace homicides, hate violence, and deadly terrorist attacks in the United States. This has resulted in a greater focus on homicidal behavior, its antecedents, ways to recognize warning signs of at-risk victims and offenders, and preventive measures. It has also led to increased efforts by lawmakers to create and pass tough crime legislation as well as improved federal, state, and local law enforcement response to murder and other violent crimes. *The Dynamics of Murder: Kill or Be Killed* is a multifaceted probe of murder offenses, offenders, victims, and characteristics of homicide in American society. This book breaks new ground in homicide studies by examining issues generally ignored or neglected among researchers. Topics include murders occurring in the workplace and in schools, those perpetrated by gangs and terrorists, those incited by bias, and intimate and intrafamilial murders. The book discusses sexual killers, serial and mass murderers, and suicide. It also examines psychological and sociological theories on murder and violence as well as the increasing role the Internet plays in these crimes. Case studies of actual murderers are included, including serial killers Gerald and Charlene Gallego, mass murderer Byran Koji Uyesugi, the murder-suicide case of Sahel Kazemi, and the intrafamilial murders committed by Charles Stuart and Sarah Marie Johnson. A comprehensive exploration of the crime of murder in American society, this fascinating study is an essential resource for researchers, criminologists, and other professionals in a wide range of disciplines.
