New York Times Guide To Alternative Health A Consumer Reference:

Toward an Integrative Medicine Hans A. Baer, 2004-12-01 This book chronicles the transformation of the holistic health movement over the past three decades as it increasingly influences the delivery of health care in America. In it, he describes the battle for legitimacy by alternative therapeutic practitioners and the biomedical profession's increasing interest in the possibilities of a complementary and integrative medical system. Baer examines a variety of professionalized and lay heterodox therapeutic systems including chiropractors, naturopaths, and acupuncturists, homeopaths, bodyworkers, and lay midwives. He shows ironically how the holistic movement may become more limited as it gains acceptance and becomes integrated into mainstream professional medicine. This book is a valuable resource for instructors, students, professionals, and others interested in public health issues, health policy, medical studies, health economics, medical anthropology, and sociology.

Conquering Postpartum Depression Ronald Rosenberg, Deborah Greening, James Windell, 2009-04-27 Each year over 400 000 new mothers experience a range of negative emotional reactions categorized as postpartum depression (PPD). Yet most obstetricians misunderstand and mistreat PPD, prescribing a single therapy, simplistic approach that frequently falls short of curing the patient. Based on the authors' research and unique, highly successful treatment, *Conquering Postpartum Depression* outlines a groundbreaking multidisciplinary action plan for beating PPD, including a combination of talk therapy, new parent counseling, and in many cases, the safe use of antidepressant medications even while pregnant or breastfeeding. With the newest information on how genetic factors and pre-existing conditions can contribute to PPD, *Conquering Postpartum Depression* is the book that new mothers and even doctors reach to for authoritative and reassuring counsel. *Subject*
