Next Door To Danger:

Next Door to Danger Charlotte MacLeod, Adelaide Cutter had been scarred physically as well as emotionally by the ugly circumstances of her father s death Now as a shy but enthusiastic beginner in an art studio she was starting a new life for herself If her tiny Beacon Hill apartment wasn t much by the standards of her materialistic guardians at least it meant that Adelaide could have a place to call her own place where if nothing else she could hide from anyone who might notice what a bullet had done to her cheek But her quiet life was to change suddenly Late one night a well dressed stranger knocked on Adelaide s door seeking assistance for her elderly landlady who had collapsed The emergency was taken care of quickly But the stranger Nathaniel West had become intrigued by tiny blonde Adelaide and when he learned her name he was intrigued also in learning the details of her father s death So she was soon to learn was his invalid father who was full of questions as well as theories From her association with the wealthy and independent Wests Adelaide discovered that she was not after all the ugly duckling she had thought she was nor was she living a very safe life

In Danger's Embrace A.M. Griffin,2016-06-07 In many ways my life is complete or as complete as it can be with aliens roaming Earth killing and enslaving humans Jason my love is by my side and my friendship with Wade is back on track Even better it seems the threats of annihilation from the aliens have turned out to be nothing but hot air Yet despite the peace of our Arrowwood refuge there is still a war waging outside something I ve tried not to think too much about Just as I ve ignored the fact that a sanctuary can also be a prison or a tomb we are forced to step out of safety and live or die in danger s embrace

The Hahnemannian Monthly ,1903 Rationality, Time, and Self Olley (F.O.C.H.) Pearson,2018-02-16 This book provides a new argument for the tensed theory of time and emergentism about the self This argument derives in part from theories which establish our nature as rational and emotional beings whose behavior is responsive to reasons which are facts It is argued that there must be reasons hence facts that can only be captured by tensed and or first personal language if our behavior is to be by and large rational and appropriate This establishes the tensed theory of time and emergentism or dualism about the self given the physical body can plausibly be fully described non first personally In the course of this discussion the book also clarifies and defends a notion of fact and responds to McTaggart s paradox and Wittgenstein s private language argument
