Out Of The Madness

Jonathan Loesberg

Out Of The Madness:

Out of the Madness Jerrold Ladd, 2009-09-26 A raw and hopeful autobiography of a young African American who used self education and sheer force of will to overcome the battery of drugs violence and abject poverty of his early life in the Dallas projects

Maurice Blanchot on Poetry and Narrative Kevin Hart, 2023-05-18 Blanchot and his writings on three major poets Mallarmé Herlihy and Char provide a decisive new point of departure for English language criticism of his philosophical writings on narrative in this study by leading Blanchot scholar Kevin Hart Connecting his work to later leading figures of 20th century French philosophy including Emmanuel Levinas Simone Weil and Jacques Derrida Hart highlights the importance of Jewish philosophy and political thought to his overall conception of literature Chapters on community and negation reveal Blanchot's emphasis on the relationship between narrative and politics over the more commonly connected narrative and aesthetics By fully discussing Blanchot's elusive concept of the Outside for the first time this book progresses scholarly understandings of his entire oeuvre further This central concept engages Franz Rosenzweig's work on Abrahamic faiths enabling a reckoning on the role of suffering and literature in the wake of the Shoah with significant implications for Jewish studies more generally

Aestheticism and Deconstruction Jonathan Loesberg, 2014-07-14 Considered an exemplar of Art for Art's Sake in Victorian art and literature Walter Pater 1839-1894 was co-opted as a standard bearer for the cult of hedonism by Oscar Wilde and this version of aestheticism has since been used to attack deconstruction Here Jonathan Loesberg boldly uses Pater's important work on society and culture *Studies in the History of the Renaissance* 1873 to argue that the habitual dismissal of deconstruction as aestheticist fails to recognize the genuine philosophic point and political engagement within aestheticism Reading Jacques Derrida and Paul de Man in light of Pater's *Renaissance* Loesberg begins by accepting the charge that deconstruction is aestheticist He goes on to show however that aestheticism and modern deconstruction both produce philosophical knowledge and political effect through persistent self-questioning or self-resistance and in the internal critique and destabilization of hegemonic truths Throughout Loesberg reinterprets Pater and reexamines the contributions of deconstruction in relation to the apparent theoretical shift away from deconstruction and toward new historicism Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
