Catriona Elder, 2020-07-24 After a century of speculation by writers filmmakers travelers and scholars being Australian has become a recognisable shorthand for a group of national characteristics Now in an era of international terrorism being seen as un Australian has become a potent rhetorical weapon for some and a badge of honour for others Catriona Elder explores the origins meaning and effects of the many stories we tell about ourselves and how they have changed over time She outlines some of the traditional stories and their role in Australian nationalism and she shows how concepts of egalitarianism peaceful settlement and sporting prowess have been used to create a national identity Elder also investigates the cultural and social perspectives that have been used to critique dominant accounts of Australian identity including ideas of class gender sexuality ethnicity and race She shows how these critiques have been in turn queried in recent years Being Australian is an ideal introduction to studying Australia for anyone interested in understanding Australian society culture and history A clever work incisive and original At a time when Australian identities have never been more debated Elder finds an open way through the closed doors which often restrict cultural representations of Australian ness Professor Adam Shoemaker Dean of Arts ANU This is a timely and significant new analysis essential reading on issues of identity and our own anxieties about national belonging and what it means to be Australian in a globalising world Kate Darian Smith Professor of Australian Studies and History University of Melbourne

Sound Citizens Catherine Fisher,2021-06-08 In 1954 Dame Enid Lyons the first woman elected to the Australian House of Representatives argued that radio had created a bigger revolution in the life of a woman than anything that has happened any time as it brought the public sphere into the home and women into the public sphere Taking this claim as its starting point Sound Citizens examines how a cohort of professional women broadcasters activists and politicians used radio to contribute to the public sphere and improve women s status in Australia from the introduction of radio in 1923 until the introduction of television in 1956 This book reveals a much broader and more complex history of women s contributions to Australian broadcasting than has been previously acknowledged Using a rich archive of radio magazines station archives scripts personal papers and surviving recordings Sound Citizens traces how women broadcasters used radio as a tool for their advocacy radio s significance to the history of women s advancement and how broadcasting was used in the development of women s citizenship in Australia It argues that women broadcasters saw radio as a medium that had the potential to transform women s lives and status in society and that they worked to both claim their own voices in the public sphere and to encourage other women to become active citizens Radio provided a platform for women to contribute to public discourse and normalised the presence of women s voices in the public sphere both literally and figuratively **What the Country Women of the World are Doing** ,1930 Each volume includes a biographical section a list of national associations
