Tracking women's life experience across class lines outside as well as inside the domestic realm, Xu challenges the accepted wisdom about women and gender roles in medieval China. She contextualizes women in a much broader physical space and social network, investigating the gaps between ideals and reality and examining women's own agency in gender construction. She argues that women's autonomy and mobility, conventionally attributed to Ming and Qing women of late imperial China, can be traced to the Song era. This thorough study of Song women's life experience connects women to the great political, economic and social transitions of the time and sheds light on the so-called Song-Yuan-Ming transition from the perspective of gender studies. By putting women at the center of analysis and by focusing on the local and the quotidian, *Crossing the Gate* offers a new and nuanced picture of the Song Confucian revival.
