

The background image shows two men standing in a vast, open field. On the left, a man is seen from the back, wearing a light-colored jacket and dark pants. On the right, a man in a dark jacket, light-colored pants, and a hat looks towards the center. In the distance, a tall metal windmill stands against a sky with a bright sun low on the horizon, creating a silhouette effect. The ground is uneven and appears to be a mix of dirt and sparse vegetation.

Outlaw Album:

The Outlaw Album Daniel Woodrell, 2024-09-24 Woodrell writes about violence and dark deeds in compact musical prose once you begin reading these short stories you can't stop New York Times Daniel Woodrell is able to lend uncanny logic to harsh even criminal behavior in this wrenching collection of stories Desperation both material and psychological motivates his characters A husband cruelly avenges the killing of his wife's pet an injured rapist is cared for by a young girl until she reaches her breaking point a disturbed veteran of Iraq is murdered for his erratic behavior an outsider's house is set on fire by an angry neighbor There is also the tenderness and loyalty of the vulnerable in these stories between spouses parents and children siblings and comrades in arms which brings the troubled sorely tested cast of characters to vivid relatable life And as ever the music coming from Woodrell's banjo cannot be confused with the sounds of any other writer Atlanta Journal Constitution in these twelve timeless Ozarkian tales of those on the fringes of society by a stunningly original Associated Press American master Woodrell has a poet's sense of how to turn a phrase Esquire The lineage from Faulkner to Woodrell runs as deep and true as an Ozark stream in this book His most profound and haunting work yet Los Angeles Times Book Review Woodrell has a master's ability to create tension The New Yorker Woodrell's spare brutal prose a kind of country noir captures the true essence of a rough little pocket of America's heartland that has yet to be and may indeed never be smoothed over Publishers Weekly

its investigation of both old and new media in relation to social constructions of deviancy represents a timely and topical contribution to the field of media and cultural studies. Given its breadth and scope, the anthology represents a highly significant scholarly contribution that will greatly benefit scholars, students, and interested individuals of all levels. It offers eye-opening insights to anyone with an interest in cultural studies, disease and disability studies, film and television studies, LGBT studies, criminal justice, sociology, and related fields.

Brief Reviewer Bio: Metasebia Woldemariam, Ph.D., is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness.

Mediated Deviance and Social Otherness: Interrogating Influential Representations is an erudite collection offering critical and cultural analysis of media representations within various media forms, including journalism, film, documentary, television, fiction, music, and the Internet. The book is divided into six sections that highlight the categories of deviance and otherness; the contributors emphasize:

1. Age
2. Crime and Criminals
3. Disease and Disability
4. Gender, Race, and Class
5. Sexual Orientation
6. Other Forms of Deviance

which include masochism, carnival, spectacles, and cultures of violence. While some chapters feature links to topics common to media studies, such as the Motion Picture Production Code, what is powerful about the collection is how varied the interpretive standpoints of the contributors are. An example of one such unique interpretive perspective comes from Linda K. Fuller, whose chapter examines the sexual-political aspects of African AIDS-related films based on her work in West Africa, with a sexologist collating and critiquing appropriate media for Life Skills. This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis; the collection offers analysis of classic as well as popular literature, popular as well as veiled news media, award-winning as well as obscure television series, and outlaw country music as well as rap music. Because media is so broadly interpreted within the collection, readers are encouraged to view mass media as a crucial cultural landscape for meaning-making. Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts, or even through analysis of representations in multiple media forms. For example, Annette Holba examines multiple forms of the media representations of a less-emphasized person in the Lizzie Borden case; Borden's stepmother. Editor Kylo Patrick R. Hart's own contribution examines multiple media representations of the visible physical signs of AIDS, before focusing on their representation in two particularly noteworthy film melodramas. Rather than focusing on stereotypical categories of deviance and otherness, the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of media. This is evident through Christopher J. Perez's ethnographic observation of instant messages from Gay.com participants, which dispels the notion that such online communities allow for positive expressions of gay identity. Through its broad interpretation of media, the collection offers an ample array of less commonly acknowledged media genres, as evident in Margaret Weigel's class analysis of the electric bulb advertising sign-spectacles in Manhattan from 1892 to 1917. Wendy Korwin's visual

analysis of a set of four image plates used within prescriptive literature and Amanda Klein TM s cinematic comparison of portrayed deviance in the 1950s juvenile delinquency teenpic and the 1990s ghetto action film Incorporated also are unique perspectives on traditional news media representations as in Thomas Grochowski TM s interpretation of celebrity defendant perspectives of O J Simpson Occasionally common themes thread particular chapters together allowing opportunities to understand how critics view the same or similar media differently For example David Sealy and Georges Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series OZ Additionally contemporary moral dilemmas and societal issues are covered as they appear in various media representations as when Barbara Barnett TM s discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff TM s analysis of the textured view of abortion provided by the film Vera Drake Hart TM s collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social cultural historical and even technological contexts The issue of the detrimental effects of oeshared notions of deviance and social otherness is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging graduate level classroom discussions Also because the collection includes literary analysis it could serve well those with interest in literary criticism ELESZA RUMINSKI Ph D is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication film studies and visual communication
