importance of teaching reading and writing. This volume offers a rigorous examination of reading and the pedagogy of reading critically. The book examines the crucial role of reading in the education of the child for the year 2000 and explores the history of reading and readers in America while surveying the attendant literacy debates. The author examines the historical progress of American reading instruction demonstrating that how one is taught to read not only determines what one will read but also what is permissible to read and how pedagogies of reading define reading publics. An important chapter focuses on reading as a process of identity construction that creates not only a text but shapes the person who reads that text. The book also describes reading as a psychological process in which the creative act of manipulating the text produces the self and the world. A final chapter discusses reading as the center of the educational system and examines methodologies. An index is provided.

**Psychedelic Modernism: Literature and Film** Raj Chandarlapaty, 2024-04-16

The primary purpose of Psychedelic Modernism Literature and Film is to trace the development of ideas and perspectives from the writing and private ambitions of 20th century modernist writers including Aldous Huxley. The purpose of the book is to offer a rough chronology during which ideas were first given a literary imagination then transposed onto discussions of science and psychology and then theoretically democratized to bring fruit to a relatively de centered process where images text and interviews could re conceptualize the modern Being from an admixture of modernist historical and pop roots that could express a greater moment in the human action. The work includes discussions from scientists such as Swiss chemist Albert Hofmann rock stars such as Jerry Garcia and unconfirmed mystics such as Carlos Castaneda. The primary focus of this work isn't literature per se but the literary imagination as it may correspond to greater wider and more impactive goals than the writing of 20th century fiction. While there is some outreach that favors de centered models such as the Beat Generation the author's primary purpose is to assemble an anthology covering the study and quests for knowledge from as many sides as could power the relative 1960s countercultural movement.
