Our Present Discontents. [Essays.] William Ralph INGE (K.C.V.O., Dean of St. Paul's.),1938 Our Present Discontents Arthur R. M. Lower,1933 Thoughts on the Cause of the Present Discontents. [By Edmund Burke.]
THOUGHTS.,1770 **Thoughts on the Present Discontents, and Speeches, Etc.** Edmund Burke,2018-07-11 Thoughts on the Present Discontents and Speeches etc by Edmund Burke Edmund Burke was born at Dublin on the first of January 1730 His father was an attorney who had fifteen children of whom all but four died in their youth Edmund the second son being of delicate health in his childhood was taught at home and at his grandfather s house in the country before he was sent with his two brothers Garrett and Richard to a school at Ballitore under Abraham Shackleton a member of the Society of Friends For nearly forty years afterwards Burke paid an annual visit to Ballitore In 1744 after leaving school Burke entered Trinity College Dublin He graduated B A in 1748 M A 1751 In 1750 he came to London to the Middle Temple In 1756 Burke became known as a writer by two pieces One was a pamphlet called A Vindication of Natural Society This was an ironical piece reducing to absurdity those theories of the excellence of uncivilised humanity which were gathering strength in France and had been favoured in the philosophical works of Bolingbroke then lately published Burke s other work published in 1756 was his Essay on the Sublime and Beautiful At this time Burke s health broke down He was cared for in the house of a kindly physician Dr Nugent and the result was that in the spring of 1757 he married Dr Nugent s daughter In the following year Burke made Samuel Johnson s acquaintance and acquaintance ripened fast into close friendship In 1758 also a son was born and as a way of adding to his income Burke suggested the plan of The Annual Register In 1761 Burke became private secretary to William Gerard Hamilton who was then appointed Chief Secretary to Ireland In April 1763 Burke s services were recognised by a pension of 300 a year but he threw this up in April 1765 when he found that his services were considered to have been not only recognised but also bought On the 10th of July in that year 1765 Lord Rockingham became Premier and a week later Burke through the good offices of an admiring friend who had come to know him in the newly founded Turk s Head Club became Rockingham s private secretary He was now the mainstay if not the inspirer of Rockingham s policy of pacific compromise in the vexed questions between England and the American colonies Burke s elder brother who had lately succeeded to his father s property died also in 1765 and Burke sold the estate in Cork for 4 000 We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the

T is an undertaking of some degree of difficulty to examine into the cause of public If a man happens not to succeed in such an enquiry he will be thought weak and visionary if he touches the true grievance there is a danger that he may come near to persons of weight and consequence who will rather be affected at the discovery of their errors than thankful for the occasion of correcting them About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Discontents and the Two Speeches on America Edmund Burke,2020-08-30 An accomplished critic has observed with much truth that the only specimen of Burke is all that he wrote because every product of his pen contains additional proofs of his power Those who wish to understand the nature and importance of his multifarious labours should make the acquaintance of his writings in the mass and master them singly in detail It has long been understood that he who gives his nights and days to this task will acquire a knowledge of the principles of general politics of the limitations which modify those principles in our own national policy of the questions with which that policy deals and of the secret of applying the English tongue to their illustration which cannot be acquired in any other way In the prosecution of this task the student will learn the practical importance of the maxim laid down in the Preface to a previous volume of this series that all study to be useful must be pursued in a spirit of deference

Burke,2009-03 Edmund Burke 1729 1797 was an Anglo Irish statesman author orator political theorist and philosopher who after relocating to Great Britain served for many years in the British House of Commons as a member of the Whig party He is mainly remembered for his support of the American colonies in the dispute with King George III and Britain that led to the American Revolution and for his strong opposition to the French Revolution Burke worked on aesthetics and founded the Annual Register a political review He is widely regarded as the philosophical founder of Anglo American conservatism Burke's first published work A Vindication of Natural Society appeared in 1756 In 1757 he published a treatise on aesthetics A Philosophical Enquiry into the Origin of Our Ideas of the Sublime and Beautiful His other works include Reflections on the Revolution in France 1790 and An Appeal from the New to the Old Whigs 1791 Burke took a leading role in the debate over the constitutional limits to the executive authority of the King He argued strongly against unrestrained royal power and for the role of political parties in maintaining a principled opposition capable of preventing abuses by the monarch or by specific factions within the government His most important publication in this regard was his Thoughts on the Cause of the Present Discontents of May 1770 In it Burke opposed the influence of the Court and defended party connections

Thoughts on the
Present Discontents

Edmund Burke,2020-04-22 It is an undertaking of some degree of delicacy to examine into the cause of public disorders If a man happens not to succeed in such an inquiry he will be thought weak and visionary if he touches the true grievance there is a danger that he may come near to persons of weight and consequence who will rather be exasperated at the discovery of their errors than thankful for the occasion of correcting them If he should be obliged to blame the favourites of the people he will be considered as the tool of power if he censures those in power he will be looked on as an instrument of faction But in all exertions of duty something is to be hazarded In cases of tumult and disorder our law has invested every man in some sort with the authority of a magistrate When the affairs of the nation are distracted private people are by the spirit of that law justified in stepping a little out of their ordinary sphere They enjoy a privilege of somewhat more dignity and effect than that of idle lamentation over the calamities of their country They may look into them narrowly they may reason upon them liberally and if they should be so fortunate as to discover the true source of the mischief and to suggest any probable method of removing it though they may displease the rulers for the day they are certainly of service to the cause of Government Government is deeply interested in everything which even through the medium of some

temporary uneasiness may tend finally to compose the minds of the subjects and to conciliate their affections I have nothing to do here with the abstract value of the voice of the people But as long as reputation the most precious possession of every individual and as long as opinion the great support of the State depend entirely upon that voice it can never be considered as a thing of little consequence either to individuals or to Government Nations are not primarily ruled by laws less by violence Whatever original energy may be supposed either in force or regulation the operation of both is in truth merely instrumental Nations are governed by the same methods and on the same principles by which an individual without authority is often able to govern those who are his equals or his superiors by a knowledge of their temper and by a judicious management of it I mean when public affairs are steadily and quietly conducted not when Government is nothing but a continued scuffle between the magistrate and the multitude in which sometimes the one and sometimes the other is uppermost in which they alternately yield and prevail in a series of contemptible victories and scandalous submissions The temper of the people amongst whom he presides ought therefore to be the first study of a statesman And the knowledge of this temper it is by no means impossible for him to attain if he has not an interest in being ignorant of what it is his duty to learn
